**TREES AND PLANTS THAT GROW . . .
. . . SATISFACTION GUARANTEED**

NEW and RARE PLANTS

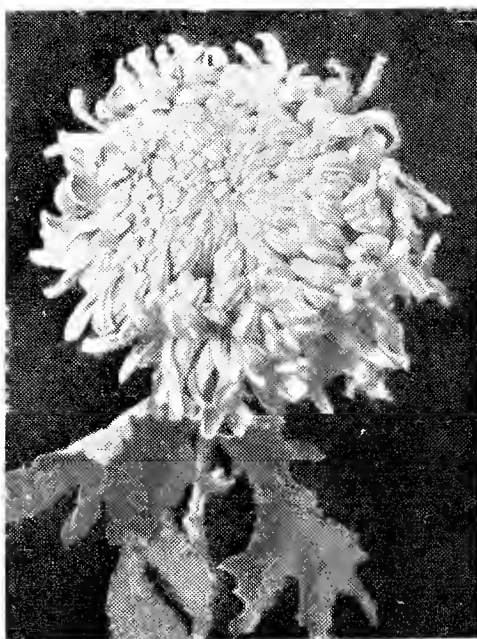

Carnation

NEW HARDY CARNATION —CRIMSON KING — (Crimson King is the original stock of this new improved hardy carnation sold by other companies by many different names.) A new hardy double carnation equalling those grown in greenhouses yet withstands a winter temperature 20 below zero without protection. They produce double flowers 1½ to 2 inches across on stems of one foot and over. The color is a rich crimson-red and of pleasing spicy fragrance. They are very easy grown, blooms the first year, producing over 100 flowers in a season under normal growing conditions, from July till winter. Plants grown from stock exhibited at worlds fair, 1933-1934 and much superior to other strains. **Strong blooming size plants 30c each; 3 for 75c; prepaid.**

NEW ROSE ROULETTI—Smallest rose in the world. Distinct new novelty—nothing like it. Entire plant not over ten inches high. Covered with tiny pink flowers. Blooms all season. Splendid for rockeries and to pot for winter blooming indoors. **50c each; 3 for \$1.15; 10 for \$3.75; prepaid.**

NEW PINK CUSHION CHRYSANTHEMUM — A solid mass of beautiful double pink flowers the first year. This thrifty early flowering variety grows 2 to 3 feet across the first season and is covered with hundreds of beautiful, double lavender pink flowers. Many times plants have 500 to 800 blooms the first season. This new novelty starts blooming the latter part of August and continues until late fall. You will be proud to display this new sensational chrysanthemum. **Strong plants 35c each; 3 for \$1.00; 10 for \$2.00; prepaid.**

Chrysanthemum

Evergreen Garland Flower

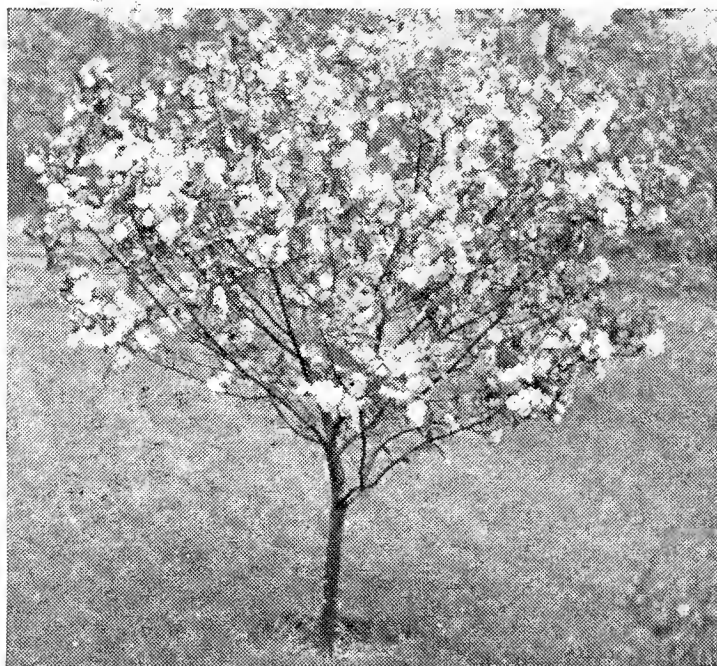

EVERGREEN GARLAND FLOWER—Beautiful clusters of fragrant lilac pink flowers. These hardy evergreen plants are covered with blooms during April and May and bloom sparingly throughout the summer. Desirable for borders, rockeries and for foundation plantings. The plants do not attain a height of over 12 inches, but form clumps often over 2 feet across. **10-15 inch plants balled and burlapped 90c each; 3 for \$2.50; prepaid.**

ROSE TREE OF CHINA (Prunus Triloba). The most beautiful and showy of all small double flowering trees. It begins to bloom before the leaves appear in the spring, being covered with very double rose-like pink flowers. As an ornament from early spring until late fall it has few equals. This symmetrically formed, graceful little tree grows usually to a height of but 8 feet, and is attractive as a specimen or when planted in groups or in shrub borders. It is hardy and easily grown. The rose-like blossoms make fine cut flowers. **2 year, 3 foot plants 60c; 3 for \$1.50; prepaid.**

AN AIRPLANE VIEW OF OUR PACKING SHEDS COVERING TWO ACRES OF FLOOR SPACE QUALITY STOCK

We have here in central western Ohio, one of the best sections for producing good nursery stock to be found anywhere in the United States. Added to these natural advantages, we use all modern methods in propagating, growing, cultivating, spraying, pruning, digging, and shipping and the result is satisfactory to our customers. Were it not for this we would not be able to make the strong guarantee shown on this page.

GUARANTEE

We guarantee all our stock to be true to name, good, clean and healthy first-class stock. We also guarantee it to reach you in good growing condition. If at any time found otherwise we will gladly replace the stock or refund the purchase price. It is mutually agreed and understood that we cannot be held responsible for a greater amount than the original purchase price.

GENERAL INFORMATION

Everything in this catalog that can be conveniently shipped by parcel post is marked **POSTPAID**. They will be delivered to you **PREPAID**.

TREES and EVERGREENS and other items in this catalog too large to be sent parcel post are marked by **Express**. They will be sent to you by **EXPRESS** or **Freight**, carrying charge **Collect**.

In case of mixed orders, where part of your order is to be prepaid and part not prepaid, the order will be shipped collect, but we will include enough extra plants of the varieties you have ordered to more than pay for our share of the express or freight charges.

TERMS

Remittance should accompany the order. It may be money order, draft, or currency. If sent C. O. D. partial remittance must be sent with order. Please try to make your order out for \$1.00 or more.

HARDY PERENNIALS

(*) Asterisk indicates plants that are suitable for rock garden planting.

Our perennials are thrifty field grown plants that will bloom this year. Spring Hill perennials are produced in clay and loam soils. Plants raised by us have more vitality and transplant better than those grown in sandy locations. From our selection of perennials you will get flowers of every known color and description,—plants that will bloom year after year without replanting.

Look for Our Perennial Bargains

ACHILLEA

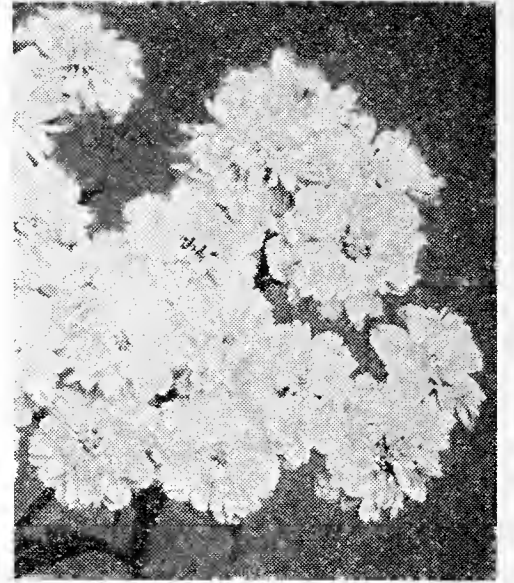

***Filipendula**—Flat glowing heads of yellow flowers in July and August, finely cut foliage, blooms last all winter, dried. Fine for rockery or border.

The Pearl—Pure white double flowers, blooms all summer, slightly dwarf and excellent for cutting.

***Roseum**—Beautiful cut-leaved foliage, rosy pink flowers in dense heads, on stems 18 inches high, good for cutting. Blooms from April to October.

AJUGA

***Reptans**—Useful plant for rockery—particularly shady positions. Bronze foliage, blue flowers and most compact. Blooms May and June.

Achillea

ANTHEMIS

Kelwayii—Daisy like yellow blossoms produced all summer. Excellent for cutting. Grows 2 feet high.

Tinctoria—Handsome, finely cut foliage and large golden yellow flowers produced all summer. Excellent for bouquets.

ANEMONE

***Pulsatilla**—Low growing plant producing violet or purple flowers during April and May. Very good for the rockery or well drained border. Does best in full sun.

Whirlwind—One of the most desirable and useful perennials. Large showy white flowers.

Anemone

ALYSSUM

***Argenteum**—Dense growth. Leaves silvery beneath, flowers yellow in clustered heads. Blooms all summer. For rockery or border.

ANCHUSA

***Myosotidiflora**—Dwarf perennial with clusters of blue flowers resembling Forget-Me-Nots. An effective rock plant for shady or sunny places. Flowering in May and June.

AQUILEGIA (Columbine)

Chrysantha—Long-spurred Columbine of a golden yellow. Blooms in late June and July.

Copper Queen—New. All shades of yellow and copper.

SPECIAL

- 3 Achillea The Pearl White
- 3 Alyssum Argenteum Golden
- 3 Asclepia Tuberosa Orange
- 3 Coreopsis Yellow
- 3 Callirhoe Poppy Pink

This collection of 15 jumbo size field grown plants all for \$1.75 prepaid.

English Long Spur—A fine strain producing distinct strains of purple, blue, red and yellow flowers.

ARTEMISIA

Silver King—A striking white-leaved contrast plant. A beautiful "mist" for setting off bouquets and floral combinations. The entire color effect bright frosted silver. Three feet high. Sprays may be cut to mix with winter bouquets.

ASCLEPIAS

Tuberosa—Produces clusters of bright orange-colored flowers which are lovely to cut and last a long time. Blooms during July and August.

All Perennials on this page are Prepaid. 20c each; 3 for 50c; 6 for 90c.

HARDY PERENNIALS—Continued

(*) Asterisk indicates plants that are suitable for rock garden planting.

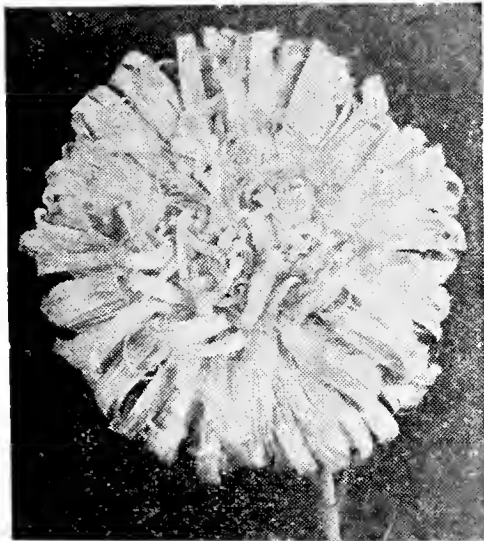

ASTER

Climax—Very showy. Tall spikes, large, light lavender-blue flowers. Blooms in September.

***Mauve Cushion**—Very distinct, grows in a cushion shape plant, covered with silvery mauve flowers in October and November.

St. Egwin—A pleasing rosy pink, very free blooming, dwarf habit. September.

Stokes—Lavender-blue centaurea-like blossoms, succeeding in any open, sunny location.

Aster

CATANANCHE (Cupids Dart)

Coerulea—Heads of pretty deep blue flowers on long stems. Profuse and excellent cut flowers. July, August and September.

CENTAUREA

***Dealbata**—Large and striking rose pink flowers. June and July. Good for the rock garden as well as the border.

Montana (Corn Flower)—Grows 2 feet high, bearing large violet-blue flowers from July to September.

CERASTIUM (Snow in Summer)

***Tomentosum**—A low, creeping plant with the upper surface of the leaves light in color and woolly; it bears a profusion of pretty white flowers. Much used for edging and rock work, where it keeps in bloom all summer.

CHRYSANthemUM (New Early Blooming)

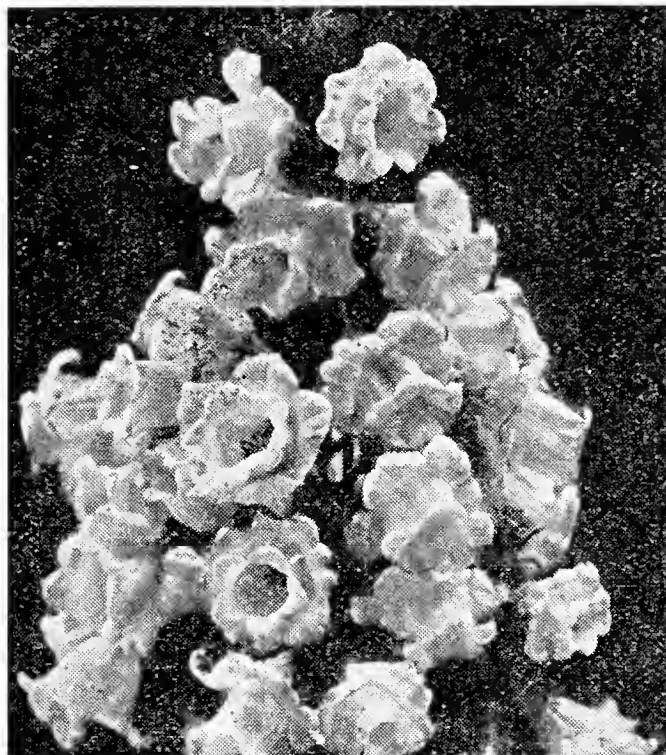

Lady Florence—Large flowering type. Brick red and yellow petals. Globular appearance.

Lady Doris—Yellow. Very double. This gives it a pom-pom effect, with all the beauty of the large flowered type in the greenhouse, both in color and shape.

Fields of Snow—Pure white button.

Lady Violet—Large yellow calyx surrounded by a color of old gold and coppery red. Flowers often three inches and are as open as a Gaillardia. The centers are fully exposed to view.

Mrs. Fred Shoaff—Immense bloomer, lavender flowers, yellow centers.

Canterbury Bells

BAPTISIA (False-Indigo)

Australias—Attractive dark green foliage, dark blue pea-shaped flowers produced in June on top of spikes 2 feet high.

CALAMINTHA (Calamint)

***Alpina**—A good rock plant or for the edge of the border, small blue flowers in June. Does well in dry, sunny location.

CALLIRHOE (Creeping Poppy)

***Involucrata**—Large saucer-shaped flowers of bright rosey crimson, with white centers. Blooms all summer and fall. Trailing habit, with finely divided foliage.

CAMPANULA (Canterbury Bells)

***Carpatica**—A pretty species growing in compact tufts. Flowers clear blue, held erect on wiry stems. Blooming from June until October.

Media—The well-known "Canterbury Bells." Its numerous branches crowded with deep bells, the edges softly rolled back and fluted. Very showy for garden, blooms in July. Mixed colors. Valuable for cutting. See cut below.

COREOPSIS

Lanceolata—Valuable border plant, because of their profusion of showy yellow flowers, very hardy. Easy culture. One to two feet. June and September.

DAISY

Alaska—A splendid form of the Shasta daisy. The whole plant is gigantic, but compact and graceful, white flowers four and five inches across. Very free flowering. Good for cut flowers.

Hartje & Elder—One of the largest and earliest blooming daisies. In bloom for memorial day. Valuable for cut flowers.

***Korean**—Newer perennial. Large white flowers with golden center often turning to shell pink. Suitable for rockery.

Painted Daisy—See Pyrethrum.

Spring Hill's Garden Collection

A SUPER VALUE

Flowers from early spring to late fall of all colors and description, 2 each of 12 varieties our selection. These fine field grown plants will give you an abundance of bloom the first year.

24 perennial plants for \$2.50 prepaid.

All Perennials on this page are Prepaid. 20c each; 3 for 50c; 6 for 90c.

HARDY PERENNIALS—Continued

(*) Asterisk indicates plants that are suitable for rock garden planting.

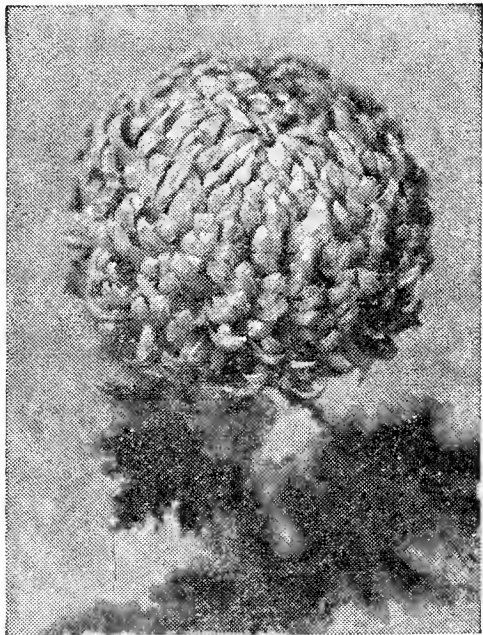

DELPHINIUM

Delphinium Belledona—The most popular variety for cut flowers. The flower spikes are not so large as the English Hybrids but it blooms more freely and the lovely light blue spikes are produced throughout the season from June to September.

Bellamosa—Similar to Belledona except the flowers are a darker blue.

***Queen of the Blues**—A new strain of Chinese Delphinium with striking blue flowers more dwarf and free blooming than the common strains.

English Hybrids—This is the only English Delphinium we have had success in growing thus far in this country. The flower produces large, single, blue blossoms on tall spikes. Sturdy in growth. No sign of disease has ever been shown.

Chrysanthemum

DIGITALIS

Grandiflora—2- to 3-foot spikes in June and July. A hardy plant, with yellowish flowers, marked with brown. Effective in groups in wild garden. This is a good perennial species.

ERYNGIUM

Maritimum—Sea Holly—Is an attractive plant for sunny borders. The plant has rigid, spiny leaves and thistle-like flowers. Their metallic blue or silvery bracts and stems, are beautiful for indoor decoration.

EUPHORBIA (Spurge)

***Myrsinites**—Attractive trailing plant, ideal for rock or wall gardens. Foliage silvery gray. Produces crowded heads of yellow flowers. Does well in shade.

GRASSES

***Festuca glauca**—Blue Fescue Grass—Hardy ornamental grass used for edgings or for a contrast with darker foliage. Has narrow bluish leaves. 12 to 15 inches.

Elymus Glaucus—Blue Lime Grass—Attractive grass with narrow, glaucous silvery foliage. Well suited for the border or edge of beds. About 18 inches high.

Eulalia Zebrina—Zebra Grass—Attractive plant for the lawn. Its long blades are marked with broad, yellow bands across the leaf. 6 to 10 feet high with silvery plumes.

Shasta Daisy

DIANTHUS

***Arenarius**—This Pink is excellent for dry, hot places and delights in sandy soil. The flowers are white with carmine ring, deeply fringed and fragrant.

Barbatus—Sweet William—This charming old favorite has been in cultivation for some three centuries. Strictly speaking, it is a biennial, but on well drained soils it is perennial in character. There are single and double forms of it, but the former are the hardier and more easily grown of the two. Choice, pink or red.

***Caesius**—Sweet smelling, rose colored flowers bloom in May.

***Deltoides**—Maiden Pink—Bears a profusion of small, crimson flowers during June and July. Easily grown on rockery.

Plumarius—Old-Fashioned Pinks—Rose-pink and white, fragrant flowers on long spikes. Handsome, glaucous green foliage. For edging and excellent for the rock garden. It will bloom continuously if flowers are cut off when they begin to fade. We offer single-mixed, double-mixed.

DICENTRA (Bleeding Heart)

***Eximia**—Plumy Bleeding Heart—A dwarf growing sort, with beautiful finely cut foliage and showy pink flowers throughout the season. It is equally at home in full shade or sun and perfectly hardy anywhere.

FUNKIA

Coerulea Lanceolata—Broad green leaves; blue flowers from July to August.

Subcordata grandiflora (Japanese Day Lily)—Very large, pure white, lily-shape, fragrant flowers in August and September.

GAILLARDIA (Blanket Flower)

Graniflora—Makes an unfailing supply of bloom in those rich, tawny shades so highly prized. Flowers often measure 3 inches in diameter, on clean 2-foot stems. A hard center of deep maroon is thickly bordered by petals of orange and yellow, strikingly ringed by circles of crimson, red and maroon.

Old Rose—A mass of blossoms. Its petals are of that lovely soft rose shade. Excellent for cutting. New variety of Gaillardia.

COLLECTION OF ROCK GARDEN PERENNIALS

This assortment of hardy plants will bloom throughout the season. We will ship you 2 each of a variety, all colors and our selection. 12 Rock plants \$1.50, 24 for \$2.50 Prepaid.

All Perennials on this page are Prepaid. 20c each; 3 for 50c; 6 for 90c.

HARDY PERENNIALS--Continued

(*) Asterisk indicates plants that are suitable for rock garden planting.

GYPSOPHILA (Baby's Breath)

Paniculata—Blooms during August and September. A minute white flower having a beautiful gauze like appearance.

***Repens**—Blooms in July and August. A trailing plant with clouds of small, white and pink flowers. Beautiful for the rockery.

VERBENA

***Hardy Verbena**—Rose colored flowers. A good hardy bedding or rock plant.

HELIANTHEMUM

***Mutabile**—Rock or Sun Rose—Low-growing evergreen plants, forming broad clumps, and which during their flowering season, July to September, are hidden by a mass of bloom for the border or rockery.

HELIOPSIS (Orange Sunflower)

Pitcheriana—**Hardy Zinnia**—Similar in general habit to Helianthus, but commencing to flower earlier in the season. July and August. Of dwarf habit, rarely exceeding 3 feet in height. Very valuable for cutting.

HEMEROCALLIS

Flava—Flowers fragrant. Clear full yellow blooms. 2½ feet. Flowers in June.

Fulva—**Brown Day Lily**—Coppery orange, shaded crimson. 3 feet. Flowers in July.

Thumbergi—Similar to Flava, but blooms a month later. July. 2 to 3 feet. Pale yellow flowers.

HESPERIS (Sweet Rocket)

Matronalis—An old-fashioned garden plant. 2 to 3 feet. Has fragrant purple, white, lilac, showy flowers. June to July.

Gaillardia

This Collection of German Iris a Magnificent Balance of Color

Ambassadeur (Vilmorin)—S. bronzy violet, F. dark maroon. Medium tall. Late blooming. 10c.

Amber (Dykes)—An amber yellow, with red gold beard. Low growing. 10c.

Bruno (Bliss 1922)—Exceptional size and quality. S. bronze, tinted and lightened with lavender shading to yellow at base. F. deep rich purple. Fragrant. 50c each.

Duke of Bedford (Bliss)—Rich deep violet purple, very velvety and brilliant. Beard orange, stalks low and widely branched. 15c.

12 Varieties, 1 each—\$1.75 prepaid

Baby's Breath

Frieda Mohr (Mohr 1926)—This is unquestionably one of the finest iris introductions. It is an exquisite pink bi-color with lilac pink standards and deep lilac rose beard. We strongly recommend it to our customers. 50c each.

Harriet Presby (Presby)—A very tall light rosy violet. Late. Fragrant. 10c each.

Lord of June—S. palest lavender. F. rich aniline blue. Bi-color. 15c each.

Morning Splendor (Shull 1922)—Deep rich large red violet. Fragrant. 36 in. 10c.

Seminole (Farr)—A brilliant velvety light red purple with a conspicuous orange beard. 30 in. 10c each.

Susan Bliss (Bliss)—Rosy lilac pink with orange beard. Blooms freely and the color carries well. Late and tall. 10c each.

IRIS

Siberian—The most delicate and elegant of all small-flowered Irises. Foliage narrow and grassy, tall stems and flowers of various shades of blue, with white markings. A good Iris for cutting; very free-flowering. Grows 2 to 3 feet. White or blue. 3 for 25c; 6 for 40c.

***Pumila**—These beautiful dwarf Irises grow 4 inches high and bloom in April and May. A fine flower for the rock garden. 4 for 25c; 10 for 50c.

All Prepaid.

Liatris

LIATRIS

Blazing Star or Gray Feather

Pycnostachya — Hardy perennial that grows in any soil. Has a stout stalk of rich purple flowers. 4 to 6 feet. Blooms in mid-summer. Excellent cut flowers.

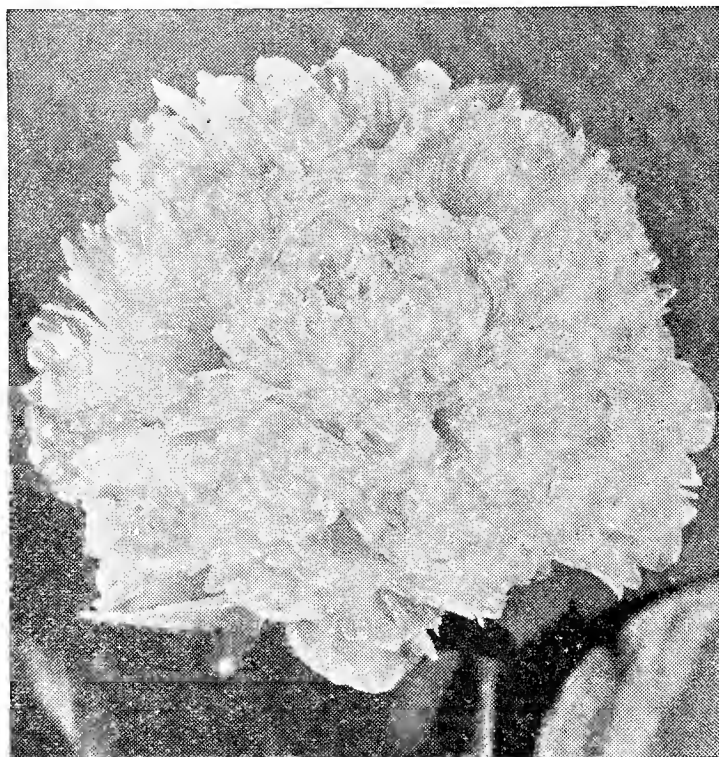

LINUM

Perennial Flax

***Perenne**—Attractive foliage. Beautiful pale blue flowers on slender, graceful stems.

Perenne alba—White form of the above.

***Flava Compacta Nana**—Fine variety of showy transparent yellow blooms.

Peony

HEUCHERA (Coralbells)

***Sanguinea** — Bushy plants of easy culture bearing loose graceful spikes of flowers. Crimson Bells. Excellent for cutting.

HIBISCUS

Mallow—About one hundred and fifty to two hundred species are known. We are dealing here only with the Giant Mallow of recent introduction which is a tall plant about three to four feet high with immense, white, pink or red, hollyhock-like flowers, freely produced during the summer.

IBERIS (Hardy Candytuft)

***Gibraltarica** — Large, delicate lilac flowers, blooming early in spring; useful for cutting. May to June.

***Sempervirens** — Very dwarf and covered with a sheet of white flowers. Fine rock plant.

Rock Garden Bargain

Ajuga
Calamintha
Catananche Cupids Dart
Delphinium Chinese

Dianthus
One each of the five Rock Garden plants. All for 75c prepaid

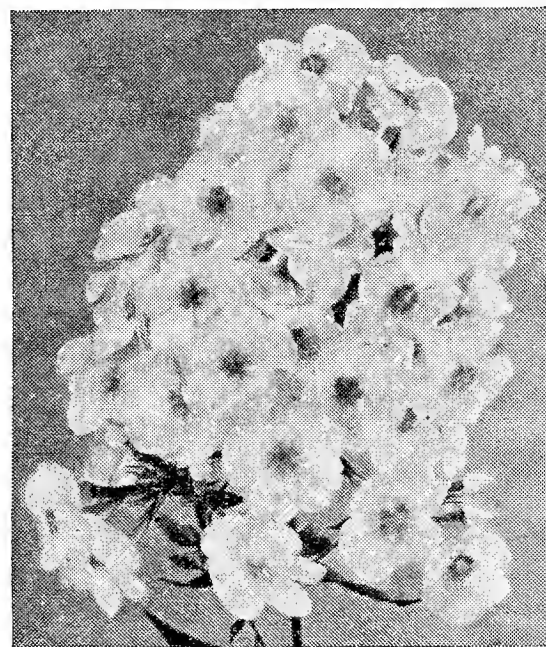

LYCHNIS Campion

***Alpina**—Rose-pink. Very neat dwarf rock plant.

Chalcedonica—Maltese Cross. Vivid scarlet flowers blooming all summer. A bright plant for the hardy border. 3 feet.

LYTHRUM Purple Loosestrife

Roseum—Grows 2 to 5 feet under varied cultivation. The purple flowers are borne freely in long terminal racemes from June to September.

Phlox

PEONIES

Now Is the Ideal Time to Plant
All 7 Varieties of Peonies for \$2.50, prepaid.

Festiva Maxima—Large globular flowers. Pure white flecked with crimson. Extra early. Fine for cutting. 25c.

Mons. Jules Elie—A gorgeous peony of enormous size. Glossy lilac-pink shading to a deeper rose. The entire flower overlaid with a silver sheen. An old favorite and one of the best. 25c.

Baroness Schroeder—Late. White with shadings of flesh. This is one of the finest peonies; freely produced, lasting a long time. Very fragrant. 45c.

Le Cygne—Very large, perfectly formed flower, freely produced. The finest white. 75c.

Felix Crousse—Very brilliant red. Medium to large, globular, typical bomb shape, fragrant; strong growth, mid-season. 25c.

Therese—Charming shade of violet-rose, changing to lilac-white. Develops a high crown; strong grower and very free bloomer. 50c.

Karl Rosenfield—Very large flower; globular, semi-rose type. Extremely vigorous grower, tall, and free-flowering. An early red. 25c.

All Perennials on this page are Prepaid. 20c each; 3 for 50c; 6 for 90c.

HARDY PERENNIALS—Continued

(*) Asterisk indicates plants that are suitable for rock garden planting.

Painted Daisy

PENTSTEMON Beard Tongue

Acuminatus—A new beautiful variety. The leaves are very pointed and the flower is a deep purple. Blooms in July.

***Glabra Rosea**—Rich purple flowers on spikes 1½ feet long.

Torreyi Barbatus—Brilliant scarlet flowers from June until August. 2 feet. Effective border plant.

PHLOX

Eclaireur—Brilliant rosy Magenta, white eye. July-August.

Nicholas Flammel—Beautiful new red, large flowers, bright carmine with crimson eye.

Fuerbrand (Fireglow)—Brilliant orange-scarlet. Sometimes almost vermillion. Flowers very freely.

Mrs. Milly Van Hoboken—An excellent new variety. Strong grower and free flowering.

Ryndstrom—A good strong grower producing an abundance of stems, each one topped with heavy trusses of flowers of a lovely rose-pink.

Marshal French—It is the best that has ever been grown. It is carmine in color, retaining its color over a period of many days.

Seboldi—A beautiful orange-scarlet, very late.

Mrs. Jenner—White—pink eye.

Miss Lingard—Immense heads of pure white flowers in June, September and October.

Betty Lou—Bright orange-scarlet, large flowers of striking color.

The above 10 varieties of phlox all post-paid for \$1.45.

PHYSOSTEGIA—VIVID

False Dragon Head—Begins to bloom about the first of July and if kept cut, will flower more or less for about three months. Lavender.

PLATYCODON

Japanese Bell Flower—A valuable perennial, forming a dense, branching bush of upright habit. One to two feet with neat foliage. It blooms from July until frost. Large bell-shaped, deep blue flowers.

ORIENTAL POPPY

Poppy—One of the most striking flowers of the perennial border. After blooming in June the plants die down and disappear, making rosettes of foliage in late fall, and stay green all winter. Assorted orange, red and scarlet.

PYRETHRUM

Painted Daisy

Roseum—Attractive fern-like foliage. Rose colored flowers, good for cutting. Bloom May and June. Single and double.

RUDBECKIA

Coneflower

Purpurea—Giant Purple Coneflower. Peculiar reddish purple flowers, with a very large, brown, cone-shaped center. Blooms from July to October. 3 feet.

SALVIA

Meadow Sage or Clary

Nemerosa—Showy, hardy plants of medium growth and of easy cultivation. The flowers are very attractive during the summer and autumn. Deep violet. August and September.

The Vaticans—Very distinct and unusual variety. The flower spikes are lightly tinged with a reddish pink.

SCABIOSA

Pin Cushion Flower

Caucasia (Blue Bonnet)—Their lovely flowers are a soft and charming shade of lavender; commences to bloom in June, throwing stems 18 to 24 inches high until September.

Physostegia

All Perennials on this page are Prepaid. 20c each; 3 for 50c; 6 for 90c

PERENNIALS—Continued

(*) Asterisk indicates plants that are suitable for rock garden planting.

Hardy Pansies

SAPONARIA (Soapwort)

***Ocymoides**—Pretty prostrate border and rockery plant; flowers rosy pink, produced in great quantities just above the foliage in late May and early June.

SEDUM (Stonecrop)

***Acer**—Golden Moss—Much used for covering graves; foliage green; flowers bright yellow; prostrate and spreading.

***Album**—Dwarf and spreading; thick, waxy round foliage, white flowers good rock plant. Excellent where drooping effect is desired. Flowers in clusters.

***Kamtschaticum**—Orange-yellow flowers, with prostrate, green foliage, turning golden in autumn.

***Spectabile**—1½ ft. Erect growing mass of rose-colored flower heads. August and September.

***Stoloniferum**—Most desirable; evergreen leaves; flowers purplish pink. July and August. Excellent for rock garden. 6 inches.

SEMPERVIVUM (Hen and Chicks)

***Globiferum**—Flattened rosettes, grey green leaves tipped brown, pale yellow flowers.

***Tectorum**—Broad rosettes, reddish brown tips, flowers pale red.

SCUTELLARIA (Skull Cap)

Coelestina—Short, wiry stems, one foot high, clothed with clear blue snapdragon-shaped flowers during July and August; a very good plant for the rock garden.

STACHYS (Woundwort)

***Lanata**—Fine old-fashioned cottage garden plant for edging; useful in rock garden; dwarf; soft silvery foliage. 4 inches.

SWEET PEAS

Hardy—Bloom all season through. The individual flowers are large and more gorgeous than the annual Sweet Pea. They are hardy and come up from the roots each year without replanting. They stand hot weather and will give you cut flowers all summer.

TRITOMA (Red Hot Poker)

Pfitzeri—In bloom from August to October with spikes 3 to 4 feet high, and heads of bloom of a rich orange-scarlet. Hardy.

TUNICA (Coat Flower)

***Saxifraga**—A pretty tufted plant with light pink flowers produced all summer, about 6 inches high for the rockery or border.

THYME

***Lemon scented**—Dwarf-growing, creeping perennials with fragrant foliage, suitable for growing on sunny banks, slopes or in rock gardens.

VERBASCUM (Mullein)

***Phoeniceum**—New rainbow of color. Attractive border plant. Forms a crinkly rosette of leaves. Excellent for the rock garden.

VIOLA (Hardy Pansies)

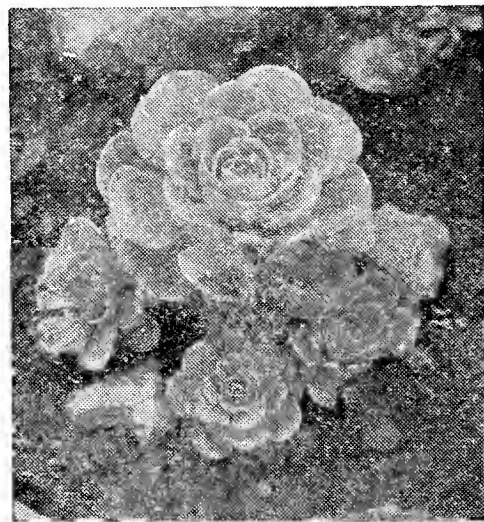

***Cornuta**—Best edging plant for hardy border. If properly cared for plants remain in bloom from May until October. Mixed colors.

VERONICA (Speedwell)

Elegans—Erect growing. Pink.

***Rupestris**—Fine rock plant. Has thickly matted, deep green foliage. Bright blue flowers.

Spicata—Violet blue flowers borne in masses. Bloom July and August.

Hens and Chicks

YUCCA (Adams Needle)

Filamentosa—Effective and striking for isolated positions on the lawn. Its broad swordlike, evergreen foliage and immense branching spikes of drooping creamy white flowers, rising to a height of six feet, render it a bold and handsome subject wherever placed.

Variegata—A very striking Yucca with yellowish striped leaves. Distinct novelty.

All Perennials on this page are Prepaid. 20c each; 3 for 50c; 6 for 90c.

A PAGE OF SPECIAL ITEMS

FLOWERING CRABS (*Malus*)

The Chinese Flowering Crabs are not so well known as the Flowering Cherries, but a lot of them are decidedly more gorgeous and brilliant. They grow in any soil.

ELEYII—This is a purple-leaved, vigorous-growing Crab of recent introduction from England. The flowers are single, of a deep pink or red color. 3 to 4 ft., 40c each; 3 for \$1.00. prepaid.

ALDENHAMENSIS—The Aldenhamensis is a new Flowering Crab, originating on the place of Hon. Vicary Gibbs at Aldenham, England. This is considered the finest of the red-flowered Crab Apples, flowering after most of the other Crabs have finished. 3 to 4 ft., 50c each; 3 for \$1.20. Prepaid.

ATROSANGUINEA—Beautiful rose-pink flowers. Tree grows into a spreading form that is attractive. 3 to 4 ft., 50c each; 3 for \$1.25. Prepaid.

SEIBOLDI—Clusters of white flowers unfolding with the leaves. Fruit beautiful. 3 to 4 ft., 50c each; 3 for \$1.25. Prepaid.

One each of the above four varieties all for \$1.75 prepaid

BECHTELS—Pale pink double flowering; sweet scented flowers; upright habit; can be used as specimen plants; very attractive in groups. 2 to 3 ft., \$1.00. Prepaid.

NEW CUT LEAF BECHTELS FLOWERING CRAB—Beautiful pale pink double flowers. Blooms early in the spring. Attractive deep green foliage that holds well in summer, does not rust and, as the name implies, cut leaved. The variety is a big improvement over the common Bechtels Crab. Our supply is limited, we have the only stock of it in this country. Order early. 2 to 3 ft., \$1.50 each; 2 for \$2.75. Prepaid.

FLOWERING HAWTHORNS

Handsome dwarf trees with shiny leaves. Very attractive in shape and color, bloom in profusion late in spring time.

DOWNY HAWTHORN—Bright green leaves with very showy creamy white flowers and scarlet edible fruit; fine for mass planting. 3 to 4 ft., 60c; 3 for \$1.50. Prepaid.

WHITE FLG. ENGLISH HAWTHORN (*Crataegus Oxycantha Alba*)—Pure white, very attractive double flowers. Beautiful in foliage and fruit in the autumn. 3 to 4 ft., 60c; 3 for \$1.50. Prepaid.

RED BUD (*Judas Tree*)

A very ornamental tree of medium size, with perfect heart-shaped leaves. Blooms early in spring before the leaves appear, covering the branches with small rosy-purple, pea-shaped flowers. 3 to 4 ft., 75c each. Prepaid.

COTONEASTER HORIZONTALIS

(*Rock Cotoneaster*)

A low, spreading, horizontal, evergreen shrub, growing to a height of 18 inches, and spreading to about 3 feet, glossy evergreen leaves, with numerous flowers that cover the shrub. The leaves turn a brilliant scarlet in autumn, which with the red berries it produces annually, makes it one of the finest shrubs grown. Price: 10 to 12 inch plants, \$1.50 each; 3 for \$2.50. Prepaid.

NEW PURPLE LEAVED FLOWERING PLUM

(*Prunus Cistina*)

A handsome little tree. Foliage maroon-red that deepens in color as the season advances. Covered with a mass of small white flowers in spring. 3 to 4 ft., 50c each; 3 for \$1.25. Prepaid.

BLOOD RED JAPANESE MAPLE

(*Acer Palmatum Atropurpureum*)

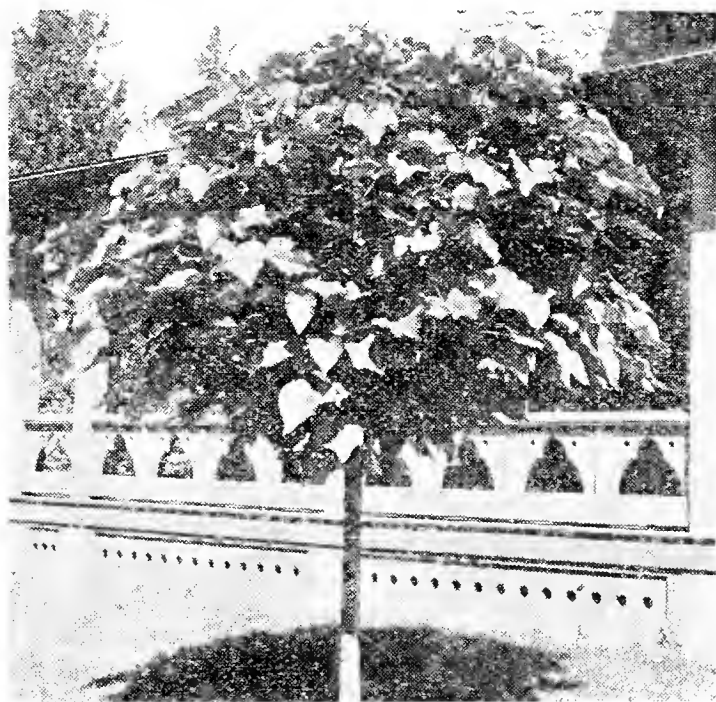

A small tree or shrub, valued for its blood red leaves and bright red branches, of dense growing habit. 12-15 inch B & B, \$1.00 each. Express Collect.

SMOKE TREE (*Rhus Cotinus*)

PURPLE FRINGE—A bush with simple obovate leaves and brown bark. Flowers purple, giving the plant a smoky appearance from which it derives its name. There is nothing quite like it. Price: 3 to 4 feet, 65c each; 3 for \$1.80. Express Collect.

CATALPA BUNGEI

UMBRELLA TREE—Just the tree to be used for formal effects. Has a broad, dome-shaped head at the top of a long, straight stem. An exceptionally hardy variety. 1 year heads, 2 for \$1.50; 2 year heads, 2 for \$2.00. Express Collect.

Umbrella Tree

PINK FLOWERING DOGWOOD

(*Cornus Florida Rubra*)

Covered in early spring with masses of large rose-red blooms. Rich red berries in fall. Formally shaped. This fine tree will excite admiration wherever grown. Strong 2-year trees, 3 to 4 ft tall, \$1.25 each; 3 for \$3.50. Prepaid.

ORNAMENTAL SHADE TREES

The recurring droughts have proven it is necessary that more trees be planted. The Government is doing its part, and it is up to us to help.

ASH—FRAXIMUS

AMERICAN WHITE—A handsome broad-headed, quick growing shade tree, often reaching 120 feet in height. Very valuable for park and street planting. 6 to 8 feet, \$1.00; not prepaid.

EUROPEAN MOUNTAIN (Sorbus Aucuparia)—An ornamental deciduous tree with beautiful showy fruit, which turns orange red in fall, often remaining all winter. 6-8 feet, \$1.00; not prepaid.

WEeping MOUNTAIN ASH—A very desirable odd weeping tree. Beautiful berries as the Mountain Ash and has habit of the Weeping Mulberry. Easily grown. Exceptional value. Price, \$1.75 each; 2 for \$3.00; not prepaid.

LINDEN

Handsome, round-headed tree with large heart-shaped, bright green foliage. Rapid growth. Greenish blossoms in June. 6-8 feet, \$1.00 each. Not prepaid.

Maple

MAPLE—ACER

SILVER (Saccharinum)—Best known of all Maples. Wide, slender, spreading branches. Thrives almost anywhere. 6-8 ft., 75c; 2 for \$1.25; 8-10 ft., \$1.00; 10-12 ft., \$1.25, not prepaid.

BOX ELDER (Negundo)—Large, spreading tree of rapid growth; very hardy, resists drought. Largely planted for windbreaks and timber. Leaves resemble those of the Ash. 6 to 8 feet, 90c each. Not prepaid.

NORWAY (Platanoides)—Large, handsome tree with a compact rounded head. One of the best and most beautiful shade trees. Hard maple. 6-8 feet, \$1.00; 8-10 feet, \$1.50; not prepaid.

SUGAR OR ROCK (Saccharum)—Large trees to 120 feet with gray bark. Long lived. Grows well. An excellent street and shade tree of upright, dense growth. 6 to 8 feet, \$1.00 each; 8 to 10 feet, \$1.50; not prepaid.

SCHWEDLERII (Red-Leaved Norway Maple)—In early spring the young leaves are bright red, changing to purplish green as they grow older. In autumn they are golden yellow. 6-8 feet, \$1.50; 8-10 feet, \$2.00; not prepaid.

CATALPA BUNGEII

UMBRELLA TREE—Just the tree to be used for formal effects. Propagated on a stem of the Catalpa Speciosa. It makes a very unique ornamental tree. Has a broad dome-shaped head at the top of a long straight stem. When the tree attains its full growth the top is often 15 feet in diameter, on top of a strong stem from 7 to 8 feet in height. An exceptionally hardy variety. 1 year heads, 2 for \$1.50; 2 year heads, 2 for \$2.00. Not prepaid.

CHINESE TREE WISTERIA

Blue and White. We offer you grafted plants that are guaranteed to bloom. Long, pendulous clusters of flowers are generously produced in May and June. These plants are trained to tree shape and may be grown as a tree rather than a vine. We offer two colors, lavender and white. 3 to 4 ft. plants, \$1.25 each; 2 for \$2.40, not prepaid.

A NEW VARIETY OF ELM

MOLINE ELM—The outstanding characteristic of this tree is a decidedly conical or pyramidal growth, with heavy branches twice the caliper of the common Elm and leaves twice the size of the ordinary, of a deep shining green color and deeply veined. The bark is smooth, greenish gray in the young growth, and extremely clean and healthy looking. You cannot go wrong to order a good supply from our extremely fine stock. Price, 6-8 feet, \$1.00 each; 2 for \$1.75; not prepaid.

Moline Elms

ELMS—ULMUS

AMERICAN (Americana)—Very valuable for park planting for avenues and as a shade tree for lawns. One of the most majestic and graceful of our shade trees. Hardy, a rapid grower, resists drought well, long lived. 6-8 feet, 75c; 8-10 feet, \$1.00; not prepaid.

CHINESE ELM

ULMUS PUMILA (A New Variety of Elm)—A native of China. Rapid-growing tree. Forming a very dense head, with smaller, darker leaves than the American Elm. 3-4 feet, 30c each; 4 for \$1.00; prepaid.

All shade trees on this page shipped express collect except where noted.

ORNAMENTAL SHADE TREES

OAK—QUERCUS

RED OAK—80 to 100 feet tall, unusually large in leaf and quick in growth. The young shoots and leaf-stems are red, the foliage purplish crimson in autumn. **Price, 6 to 8 feet, \$1.75; 8 to 10 feet, \$2.25; not prepaid.**

ORIENTAL SYCAMORE

The well-known Oriental Plant (*Plantanus Orientalis*). Used in great numbers to create vistas of dense green shade along new streets which require quick development of shade and ornamentation. A lofty, wide-spreading tree with deeply lobed palmate leaves; valuable for its handsome foliage, hardiness, and free growth. **6 to 8 feet, \$1.00; 8 to 10 feet, \$1.50; not prepaid.**

MAGNOLIA

MAGNOLIA ACUMINATA (Cucumber Tree)—Broad handsome pyramidal specimen, with broad oval foliage. Tree beautiful in autumn when the cucumber like fruits crack open showing brilliant pink and scarlet seeds. **18 to 24 inch, 50c; prepaid.**

MAGNOLIA TRIPETALA (Umbrella Magnolia)—A rapid growing, hardy Magnolia. Usually attaining a height of 30 to 40 feet. The leaves are often 2 feet long and clustered at the tips of the twigs and radiate out like spokes of an umbrella. The white flowers have a heavy fragrance, are 7 to 10 inches across, and have 6 to 9 petals. The fruit is rose colored—large cones often 4 inches long, made up of numerous divisions which split in the fall. **3 to 4 feet, \$1.25; not prepaid.**

WEeping WILLOW

GOLDEN WEeping WILLOW (Elegantissima)—A strong and the most vigorous grower of all the weeping willows. For planting in low places or on the banks of streams, springs, lakes or ponds, making a very beautiful effect. **6 to 8 feet, 75c each; 2 for \$1.40; not prepaid.**

WISCONSIN WEeping—A weeping tree of rarely more than 40 feet in height. The branches are long, slender, and pendulous. Trees are quite hardy in northern states. **6 to 8 feet, \$1.00 each; not prepaid.**

Special, 3 to 4 feet Weeping Willow, size to plant, 3 for \$1.00, prepaid.

Willows

Sycamore

WEeping MULBERRY

One of the thriftiest, hardiest and most beautiful of the weeping trees, with slender, willowy branches that sweep the ground, forming a beautiful tent of green. **5 to 7 feet, \$1.50 each; 2 for \$2.50; not prepaid.**

RUSSIAN MULBERRY—Very hardy and long lived. Heavy foliage, compact growth, fruit attracts birds. Also planted for wind-breaks and hedges. **5 to 6 feet, 60c; 3 for \$1.50; not prepaid.**

POPLAR—POPULUS

BOLLEANA POPLAR (Silver Leaf)—Grows to an 80 foot bulky spire, leaves glossy green, flashing silver beneath. **6 to 8 feet, 75c each; 8 to 10 feet, \$1.00 each; not prepaid.**

LOMBARDY (Italian Poplar) — One of the characteristic trees of Italy. With age, the Lombardy Poplar becomes one of the most striking and picturesque trees. Grows in a pyramid shape excellent for screens on a city lot. **5 to 6 feet, 30c each; 4 for \$1.00; 10 for \$2.00; 6 to 8 feet, 40c each; 3 for \$1.00; 10 for \$2.95, not prepaid.**

TULIP TREE

Liriodendron

YELLOW WOOD (Tulipifera) — Tall, handsome, hardy, ornamental, pyramidal habit, rapid growth. Has clean foliage, light bluish green; rarely attacked by insects; fragrant yellow and orange flowers in June. **5 to 6 feet, 90c each, not prepaid.**

All shade trees on this page shipped express collect except where noted

FRUIT TREES

No home or farm, large or small, can afford to neglect planting fruit trees each year. They are profitable, beautiful, healthful, and will pay big dividends. More money can be made on land with apples selling at 50c per bushel than off of wheat selling at \$1.50 per bushel. No fruit prepaid except where noted.

APPLES

King of Fruit

Stayman's Winesap

YELLOW TRANSPARENT — Summer. Clear white, turning pale yellow.

GRIMES GOLDEN—Early winter. Bright yellow, pink cheek, highest quality.

DELICIOUS—Early winter. Large, brilliant dark red, splendid shipper.

STAYMAN'S WINESAP—Early. Very productive, skin redish purple, flesh yellow, firm, juicy.

ROME BEAUTY—Early winter. Good keeper, mottled and striped in shades of red.

WINESAP—Large winter. Dark red, juicy, good commercial apple.

BALDWIN—A bright red winter apple, attractive in appearance. Excellent for cooking and eating.

McINTOSH—The apple of the east. Brilliant solid crimson, with yellow cheek. Good quality apple.

PRICE OF APPLE

	Each	3 Trees	10 Trees
3-4 feet	\$.50	\$1.40	\$4.00
4-5 feet70	2.00	6.00

Special bundle of five 2-3 ft. trees for \$1.25, prepaid.

QUINCE

CHAMPION—Bears early. Fruit is large, oval, rich color, and excellent quality. Ripens late and keeps well. 3-4 ft., each \$1.00; 2 for \$1.90.

APRICOT

Hardy

A real hardy Apricot. Imported from Hungary a few years ago. Comes into bearing very young and seldom misses a crop. Quality of fruit is excellent and good sized. Beautiful in bloom and when tree is in fruit. Prices, 3-4 ft., 75c; 2 for \$1.40.

CHERRY TREES

A good cherry orchard for commercial purposes is one of the most profitable ventures a farmer can undertake, because there is no other fruit so much in demand, at such good prices. The trees are very thrifty and prolific, bearing large crops annually.

Our cherry is the best selected varieties and as fine as can be produced. They are all budded on Mahaleb stock, which makes the best and earliest bearing trees.

SOUR CHERRY

Height	Each	3 Trees	10 Trees
3-4 feet	\$.40	\$1.10	\$3.50
4-5 feet55	1.50	5.00

2-3 ft. bundle of 5 trees \$1.00; prepaid.

EARLY RICHMOND—Old favorite, very hardy, sour, good for cooking.

MONTMORENCY—Beautiful red cherry; larger than Early Richmond; about two weeks later. Good producer; best for shipping.

SWEET CHERRY

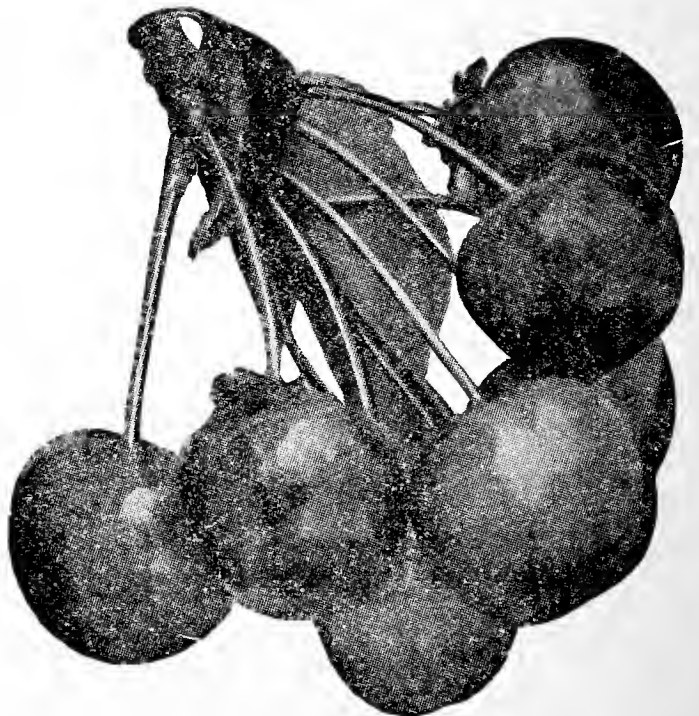

Height	Each	3 Trees	10 Trees
3-4 feet	\$.50	\$1.40	\$4.50
4-5 feet65	1.85	6.00

2-3 ft. bundle of 5 trees \$1.50; prepaid.

BRASSINGTON—Earlier than Montmorency, very productive; mild, good size. One of the better new cherries.

GOVERNOR WOOD—The standard of quality among the sweet cherries. The large, light red fruit hangs well on tree and does not rot easily. The fruit buds are hardy and the tree is a stout healthy grower, and an abundant bearer. June.

YELLOW SPANISH—Large, handsome, sweet cherry with light red cheek, firm and delicious. Tree vigorous in growth and productive. Late June.

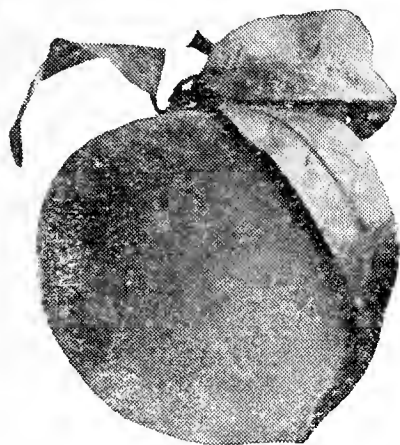

Montmorency

FRUIT TREES—Continued

No fruit prepaid except where noted.

PEACH TREES

Elberta

The nature and quality of the Peach is so well and universally known that it needs no word of introduction from us.

EARLY ELBERTA—Ripens about a week earlier than Elberta; otherwise the same, or a trifle better quality.

ELBERTA—The old reliable peach. The fruit is extra large; golden yellow, with brilliant shades of red; firm, juicy, rich and sweet. The tree is vigorous, sturdy—and hardy; thrives in widely different localities.

J. H. HALE—The tree is enormously productive and the fruit is of larger size than the Elberta. Color a deep, golden yellow overlaid with bright carmine. Smooth, solid, thick skin, a peach without the fuzz. Absolutely distinct in this respect, it stands in a class alone.

CRAWFORD'S LATE—A very large yellow freestone of the finest quality. Ripens early in September.

WILMA—A seedling of the Elberta, about 10 days later, in shape a trifle rounder, colors up better, has fully better flavor, and has the advantage of coming when the Elberta is gone.

PEARS

Duchess

THE QUALITY FRUIT

The Pear is closely related to the apple and like the apple thrives on many soils. It is noted for its delicate, mild, sweet and delicious flavor, and the melting, buttery, juicy texture of the flesh, surpassing the apple in these respects.

BARTLETT—Has large, handsome, waxen yellow fruit. Flesh buttery, rich and juicy, highly flavored for canning. Ripens in August and September.

DUCHESS D'ANGOULEME—Very large, yellow; makes a beautiful tree, a heavy bearer; flavor, melting and sweet. A dependable bearer and good market sort.

KIEFFER—On account of the excellent keeping qualities it is one of the best and most profitable market varieties. Trees bear young. October and November.

SECKLE (Sugar Pear)—This well-known little pear has attained the rank of standard in quality on account of its rich delicious flavor; very popular for dessert. August and September.

PLUMS

A BEAUTIFUL AND ORNAMENTAL TREE FOR A CITY LOT

Plum trees are often called the poor man's tree because they require so little room to grow and are always such prolific bearers.

ABUNDANCE—One of the best Japanese plums, bears young, rich bright red with light yellow flesh, excellent quality.

GERMAN PRUNE—One of the oldest varieties. The tree is vigorous in growth and

productive. Large, purple fruit that is firm, sweet, and delicious. A freestone. September.

GREEN GAGE—Fine variety for canning. Fruit is large, roundish oval, greenish yellow, spotted with red; flesh yellow, juicy, rich, of finest quality.

PLANT NOW

GRAPES

FOR PROFIT

ALWAYS DEPENDABLE BEST PAYING CROP PER ACRE

One of the most satisfactory crops grown as it can be depended upon practically each year, and can be grown almost anywhere. The market for grapes is far greater than the supply, and anyone wanting to plant an acre or so will find them a profitable crop. Write for quotations in large quantities.

CATAWBA—Best red variety. It is last to ripen. Bunches and berries large, sugary flavor. Strong plants. 25c each; 5 for \$1.15; 10 for \$2.25; 25 for \$4.95; prepaid.

CONCORDS—The most popular grape in the United States. More Concord are in bearing now than any other variety. Strong plants. 15c each; 5 for 70c; 10 for \$1.25; 25 for \$2.95; 100 for \$10.00; prepaid.

DELAWARE—Red berries are compactly set, sugary and delicious. Among the very best of dessert varieties. Strong plants. 25c each; 5 for \$1.15; 10 for \$2.25; 25 for \$4.95; prepaid.

MOORES EARLY—Most reliable, very early variety, immensely profitable to commercial growers. Medium bunch, berry large jet black. Strong plants. 20c each; 5 for 90c; 10 for \$1.75; 25 for \$3.95; 100 for \$14.00; prepaid.

NIAGARA—The standard white grape. Both bunch and berries are large to very large, handsome, and well formed. Strong plants. 20c each; 5 for 90c; 10 for \$1.75; 25 for \$3.95; 100 for \$14.00; prepaid.

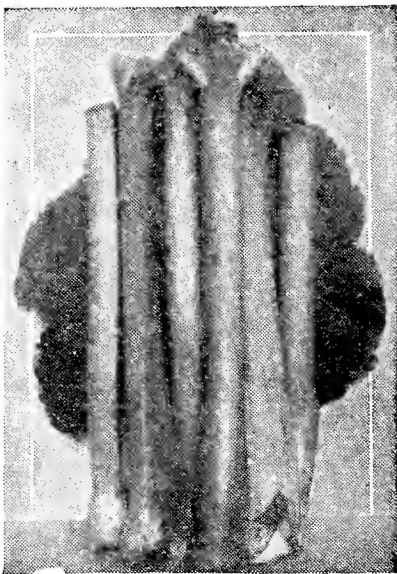

Asparagus

ASPAR-
AGUS

WASHINGTON — A new rust resistant pedigreed Asparagus. As a standard variety for the production of fancy Asparagus for home or market, it stands ahead of all others in size, vigor, tenderness, and quality. 12 for 40c; 25 for 65c; 50 for 90c; 100 for \$1.75; 400 for \$3.50; 1,000 for \$7.50; prepaid.

RHU-
BARB

MYATT'S LINNAEUS — Leaf stalks long, large, tender, juicy. Early cellar-grown rhubarb with beautiful pink, tender stalks may be enjoyed in March by anyone who will devote a little time to it. 10c each; 6 for 40c; 10 for 75c; prepaid.

Rhubarb

HORSERADISH

Horseradish is very easily produced in the home garden. Everyone prefers the fresh home-grown product to that sold over the counter. A half dozen roots are sufficient for a moderate supply for the average family. 10c each; 6 for 50c; 12 for 90c; prepaid.

Plant Small Fruits for Profit

STRAWBERRIES

Two Outstanding New Strawberries

DORSETT—Originated by the United States Department of Agriculture. Superior to Premier. Scarlet red berries of finest quality. A good producer. Firm. 25 for 50c; 100 for \$1.50; 250 for \$2.80; 1,000 for \$10.00, prepaid.

FAIRFAX—Like Dorsett, originated by the United States Department of Agriculture. Similar to Dorsett, the berries are a darker red. A firm berry. Good producer. Try both of these varieties to determine which you like best. 25 for 50c; 100 for \$1.50; 250 for \$2.80; 1,000 for \$10.00, prepaid.

PREMIER—Premier is the earliest worth while strawberry. This feature makes it a great money maker, for it yields its fruit crop at a time when strawberries are in great demand and buyers everywhere are willing and anxious to snap up every available quart of Premier, paying the highest prices for this fancy, early fruit.

Sold only in multiples of 25; 25 for 40c; 100, \$1.10; 250, \$2.50; 1,000 for \$9.00; prepaid.

SENATOR DUNLAP — Has an unusually long fruiting season. Bears immense quantities of large, handsome, rich, fine-flavored, dark red berries, which are uniform in size and shape and very attractive in appearance.

Sold only in multiples of 25; 25 for 40c; 100, \$1.10; 250, \$2.50; 1,000 for \$9.00; prepaid.

MASTODON EVERBEARING

PRODUCES THE FIRST SEASON

New giant everbearing that will start to produce an abundance of good fruit within three months after planting and continue to bear fruit until frost. The Mastodon has proven itself far superior to other everbearing varieties in many ways. Fruit is almost double the size of the common everbearers. 25 for \$1.00; 100 for \$2.50; 500 for \$8.00; 1,000 for \$14.00.

RASPBERRIES

CUMBERLAND RASPBERRY—The largest of all blackcaps; firm and a good shipper, and one of the most profitable as a market berry. Price, \$1.25 per 25; \$2.00 per 100.

LATHAM—Has proved to be the very best of all the red sorts, for most sections. Splendid strong growing kind, produces immense quantities of bright red extra large berries. Price, 25 for \$1.50; 100 for \$2.50.

CHIEF—New variety. Ripens earlier than Latham, greater hardiness, more disease resistant, bears more abundantly. Fruit bright red. One of the most profitable. Price, 25 for \$1.50; 100 for \$2.50.

BLACKBERRIES

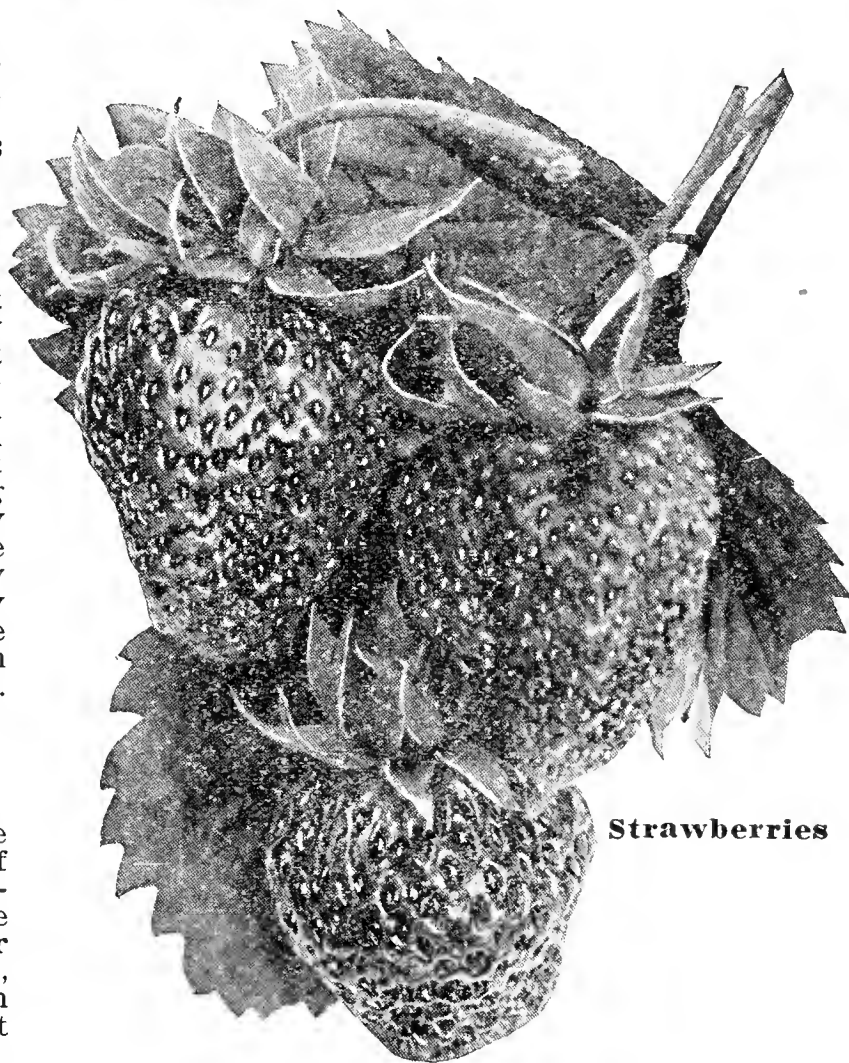

ELDORADO—Comparatively new variety, and has proven to be the best of the blackberries under cultivation. Very hardy. Fruit very large, jet black, good shipper, good quality, great producer. Price, 25 for \$1.50; 100 for \$3.25.

YOUNGBERRIES

The Youngberry has achieved the greatest success ever scored by any of the berry family. It not only bears very heavily but the fruit is easy to handle, is very attractive, ships well, keeps well, cans well and has so many commercial possibilities, and fits in so well in the home garden, that everybody should be interested in having a planting of these. Easily grown. They are among our largest berries of dark wine color, have a minimum of seeds, are highly flavored, and yield a rich looking, cherry colored juice. Youngberries thrive where any other bush fruit grows but do best in states the same latitudes as Ohio and south. 15c each; \$1.25 per doz.; \$7.50 per 100.

DEWBERRIES

The fruit is always at a premium with the commission men or the open market. If they are planted where they can be cultivated, they should be plowed and in the winter a coarse litter of mulch thrown over them. Fruit of high quality and very large, often one or two inches long and one inch in diameter. Perfectly hardy and a great bearer. Price, 25 for 90c; 100 for \$3.00.

Strawberries

JAPANESE (Thunbergi)—Grows low and dense, making it very adaptable for planting along walks and borders. Every driveway can be beautified greatly by planting Barberry. 12-18 inches, 20c; each; 6 for \$1.00; 18-24 inches, 30c each; 4 for \$1.00; prepaid.

RED LEAVED BARBERRY—Finest shrub in recent years. Bright red in the spring, stays red through the summer and deepens to a deep crimson in the fall. Red berries stay on all winter. Unequalled for bright coloring. All that is required to develop its brilliant coloring at all seasons is that it be planted in full exposure to the sun. 18-24 in., 40c each; 3 for \$1.00; prepaid.

BUTTERFLY BUSH—BUDDLEIA

SUMMER LILACS (Varibilis Magnifica)—Blooms the first season; the blossoms are borne on long, graceful stems which terminate in tapering panicles of lilac-covered flowers. Flower head ten inches long. 35c each; 4 for \$1.00; prepaid.

CALLICARPA

JAPONICA (Beautyberry)—Produces attractive opposite leaves, and shrubs are quite graceful though upright. Pink flowers, followed by clusters of lilac violet berries in the axils of the leaves. When the fruit is cut and placed in vases it displays its true charm. 12-15 in., 35c each; 3 for \$1.00; prepaid.

EUONYMUS

BURNING BUSH (Corky Bark) (Alatus)—An attractive, ornamental shrub to eight feet. The flowers appear in May and June. In autumn the foliage changes to a fire red color. 2 to 3 ft., 45c each; 2 for 80c; prepaid.

STRAWBERRY BUSH (Americana)—An ornamental, upright shrub to eight feet. The flowers appear in June, are yellowish or reddish green, followed by pink fruits which are very attractive. 2 to 3 ft., 50c each; 2 for 90c; prepaid.

HYPERICUM

ST. JOHN'S WORT—Shrubs with mostly yellow flowers. The form is compact and rounded, with somewhat persistent leaves. 18 to 24 in., 40c each; 2 for 75c; prepaid.

SHRUBS—Continued

ALL PREPAID

CALYCANTHUS

SWEET SCENTED SHRUB—A unique shrub growing upright to 6 feet, clothing its straight, strong, reddish brown shoots with large glossy leaves, from the axils of which spring odd, double, spicily fragrant flowers of chocolate-red. 1½ to 2 ft., 40c; 2 for 75c.

DOGWOOD—CORNUS

GOLDEN-TWIGGED DOGWOOD (*Stolonifera Aurea*)—Bright yellow bark in winter. Very effective when planted with red-barked varieties. 2 to 3 ft., 40c each; 2 for 75c.

RED TWIGGED (*Siberica*)—Grows 10 to 12 ft. high, purple or dark blood-red branches. Flowers greenish white. Fruit is black. 18-24 inches, 40c; 2 for 75c.

CYDONIA

FIRE BUSH—Common garden form, growing from 3 to 6 ft. with spreading, spiny branches. The scarlet-red flowers appear before the leaves and are followed by globular fruits from one and one-half to two inches high. 18-24 in., 40c; 2 for 75c.

DEUTZIA

An elegant species of strong, erect-growing shrubs, especially prized for the beautiful clusters of blossoms in May.

PRIDE OF ROCHESTER—Showy, early, large-flowering sort; blossoms in May before others. White flowers large and double. One of the best of the Deutzias. 2-3 ft., 40c; 2 for 75c.

GRACILIS—A handsome dwarf and bushy little shrub with slender, often arching branches. A neat shrub that blooms in May, clothing its branches in pure white flowers. Valuable for forcing. 12-18 inches, 45c; 2 for 85c.

FORSYTHIA—GOLDEN BELL

FORTUNII—Shrub of fountain-like habit, every twig densely covered with bright yellow flowers in early spring. 40c; 3 for 90c.

SPECTABILIS—Showiest of all. Especially dense flowering habit, deeper yellow. Vigorous growth. 40c; 3 for 90c.

WEeping (Suspensa)—Highly ornamental, free flowering shrub, growing to 5 feet; the branches often drooping on the ground and taking root. They grow in almost any garden soil and are hardy north. The golden yellow flowers appear in early spring. Excellent for margins or groups. 40c; 2 for 75c.

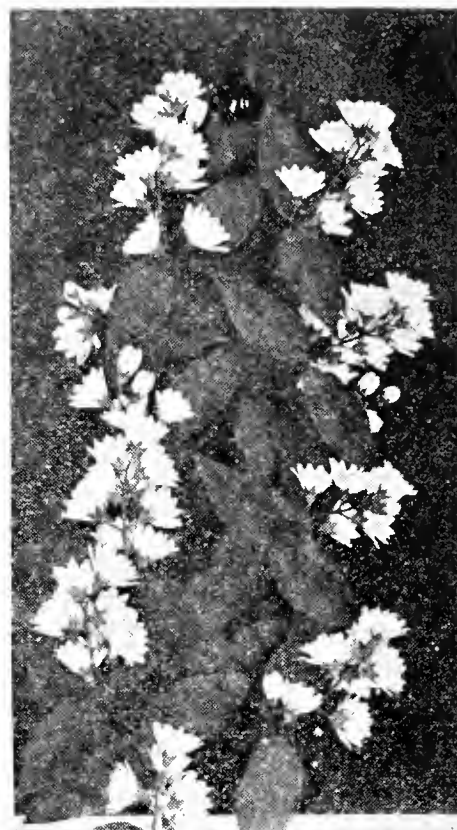

KOLKWITZIA—BEAUTY BUSH

Graceful, arching shrub with center almost upright. The flowers are produced along the whole length of the branches in clusters at the ends of short, leafy shoots. They are tubular with a gaping mouth, deep pink without, stained with yellow brown on the lower throat and lip. The graceful habit of the plant, its free-flowering qualities, pleasing color, combined with perfect hardiness, make this one of the most beautiful, as well as most useful shrubs that China has given to the gardens of this country. 2-3 ft., 40c; 3 for \$1.00.

20 FT. FOUNDATION PLANTING OR SHRUB BORDER

3 Beauty Bush Pink	12-18 inches
4 Bridalwreath White	12-18 inches
3 Golden Bell Yellow	12-18 inches
4 Mock Orange White	12-18 inches
4 Spirea Dwarf Red	10-12 inches

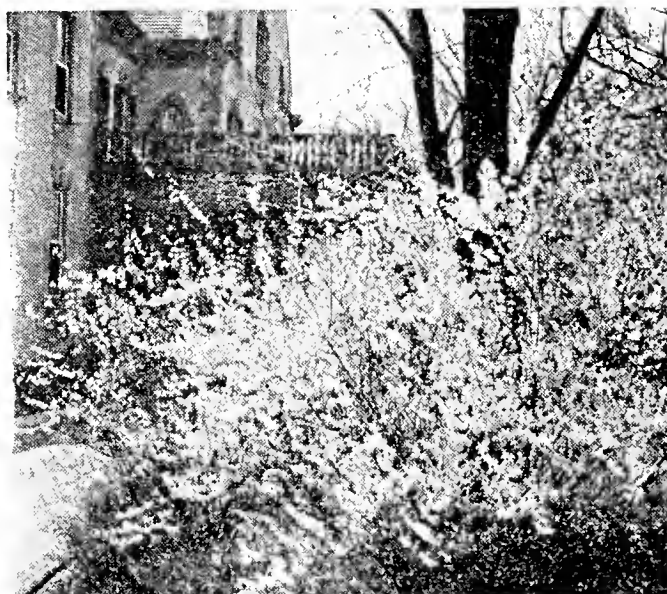

All 18 plants in above collection for \$4.45 sent prepaid.

HYDRANGEA

ARBORESCENS GRANDIFLORA (Hills of Snow)—The flowers are, in a large way, similar to the familiar "Snowball" in appearance; conspicuously white and imposing. July to September. They are excellent for solid low borders or in foundation plantings. 18-24 in., 40c; 3 for \$1.00.

PANICULATA GRANDIFLORA—Fine for hedges or, if planted in rich soil and severely pruned every spring before the leaf buds open, will get to be very dense, dwarf clumps of compact form; wonderfully attractive when laden with their massive white plumes. Large beds, kept at a uniform development, are extremely showy, first, snowy white, then pink, then reddish bronze and green. 18-24 in., 40c each; 3 for \$1.00.

HONEYSUCKLE—LONICERA

FRAGRANT BUSH (Fragrantissima)—It has handsome evergreen foliage and blooms very early. Sweet-scented though the flowers are not very showy. 2 to 3 ft., 40c each; 2 for 75c.

MORROWI—A very decorative shrub that reaches six feet in height. The beautiful pure white flowers appear in May or June and are followed by red fruits, which remain until late autumn. 2 to 3 ft., 40c; 3 for \$1.00.

TARTARIAN (Tartarica)—This is one of the old-time favorite shrubs. It attains about ten feet in height and is extremely easy to cultivate. 2 to 3 ft., 40c each; 3 for \$1.00.

SPECIAL

DESMODIUM PENDULIFORUM—Long drooping branches, 3 to 4 feet high, covered with pinkish lavender pea shaped flowers the first year. One year plants, 3 for 50c.

LILACS

CHINENSIS—Graceful plant, 10-12 ft. Compact clusters of purplish lilac flowers. 2-3 ft., 45c; 2 for 80c.

PERSICA—Slender bush 8-10 ft. Fragrant, light purple flowers in large, loose clusters. 2-3 ft., 40c; 3 for \$1.00.

VILLOSA—Treelike shrub, 12 ft. Pale, pinkish flowers in late June. 2-3 ft., 40c each; 2 for 75c.

FRENCH HYBRID LILACS—Very hardy, easily grown. Graceful plants and very fragrant.

MIXED—Splendid varieties, on their own roots. 18-24 in., 35c each; 3 for \$1.00.

The following French Hybrid Lilacs are outstanding and selected from a long list of imported varieties:

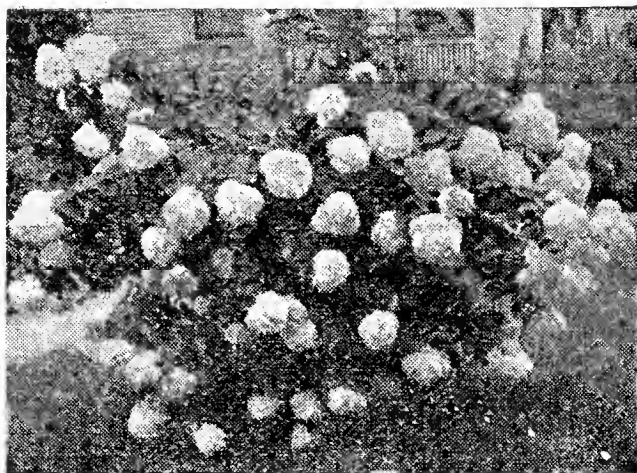

- 1 White Lilac 18-24 in., 40c
- 1 Pink Lilac 18-24 in., 40c
- 1 Blue Lilac 18-24 in., 40c
- One each of three colors, \$1.00
- Two each of three colors, 1.75

COLLECTION OFFER

20 Ft. Foundation Planting or Shrub Border

- 3 Kolkwitzia Beauty Bush, Pink, 12-18 in.
- 4 Spirea A. W. Dwarf, Red, 10-12 in.
- 3 Forsythia Golden Bells, Yellow, 12-18 in.
- 4 Philadelphus Virginal, White, 12-18 in.
- 4 Spirea V. H. Bridalwreath, White, 15-18 in.

All Above Collection for \$4.45, Prepaid.

PHILADELPHUS—MOCK ORANGE

SYRINGA GRANDIFLORA—Large, flowering shrub, growing to about eight feet, with spreading branches, usually upright and vigorous; flowers slightly fragrant. Rapid grower and most hardy. 2 to 3 ft., 40c each; 2 for 75c.

CORONARIUS (Mock Orange)—This is not quite as showy as some of the other species and of somewhat stiff habit, but deliciously fragrant. 2 to 3 ft., 40c each; 2 for 75c.

AUREA—Similar to the above variety except that the foliage is a beautiful golden color. 18 to 24 inches, 40c; 3 for \$1.00.

VIRGINAL (Blooms throughout the season)—This is a new and wonderful addition to the Mock Orange family. One of the most beautiful shrubs grown. 2-3 ft., 40c each; 2 for 75c.

SNOWBERRY

SYMPHORICARPUS (White Snowberry)—Hardy shrub from two to three feet high, excellent for massing in the lower parts of a bed or border. Rose-colored flowers appear in July and August. The white, waxy-like berries remain on until late in the autumn. 2-3 ft., 40c each; 2 for 75c.

CORAL BERRY (Red)—Slender arching shrub, very showy in autumn when covered with bunches of bright, coral pink small fruits which hang on nearly all winter. 2-3 ft., 40c each; 2 for 75c.

SPIREA—THE MOST POPULAR SHRUB

ANTHONY WATERER—Bright pink, June and July. A compact low-growing shrub with dense foliage. Flowers are borne in full flat clusters on erect stems. Very valuable for edging in front of shrubbery or as a dwarf hedge. 12-18 in., 40c; 3 for \$1.00.

SPIREA BILLARDI—Erect growing with dense spikes of rose-pink flowers in July, and August and again in the fall. 4 to 6 feet high. 2-3 ft., 40c; 2 for 75c.

KOREAN SPIREA (Trichocarpa)—New hardy Spirea. Similar to Van Houtteii. Blooms a little later and flowers much larger. 2-3 ft., 40c; 2 for 75c.

NEW SPIREA RICHEMENSIS—Upright growing spike-like flowers. Blooms practically the entire summer. Pink. Rare and worth while. 18-24 in., 40c; 3 for \$1.00.

SPIREA VAN HOUTTEII—4-6 ft. White, May. This is the most useful of the hardy shrubs. The flowers are in flat clusters usually an inch or more across, produced on spreading, pendulant branches often drooping to the ground. 2-3 ft., 35c; 4 for \$1.00.

TAMARIX

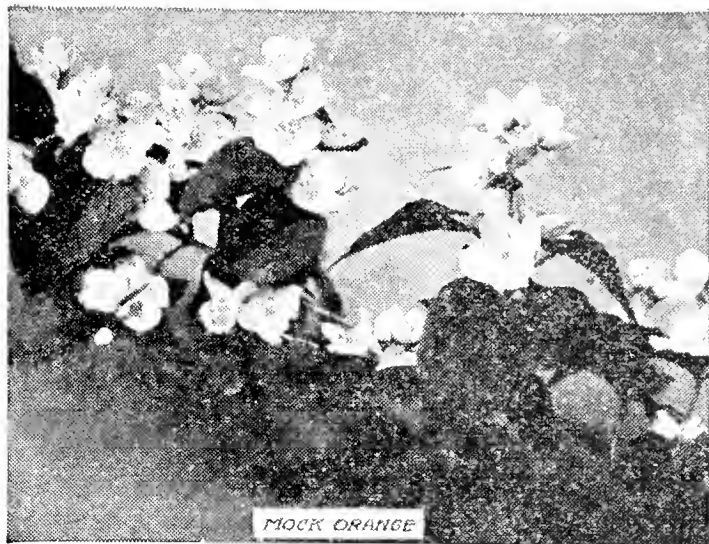

These plants are very beautiful all the year, in winter for their coloring of the bark and in summer for the light green, feathery foliage and large loose panicles of purplish flowers.

AFRICANA—Is an upright grower. Blooms in May. 2-3 ft., 40c each; 2 for 75c.

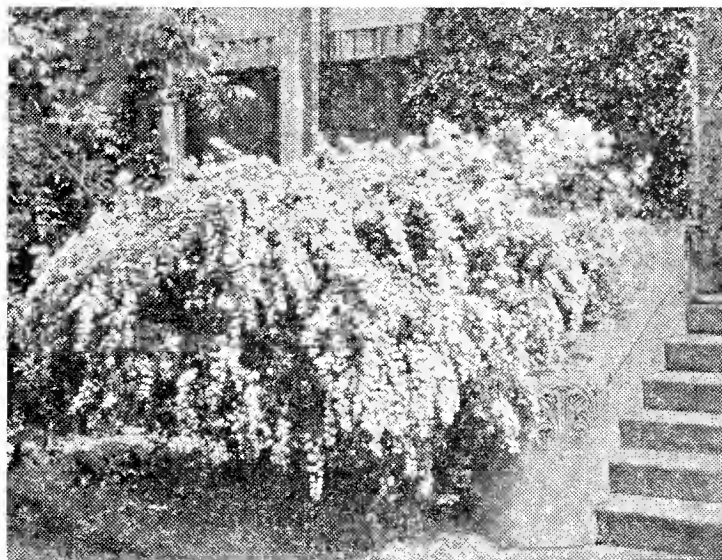

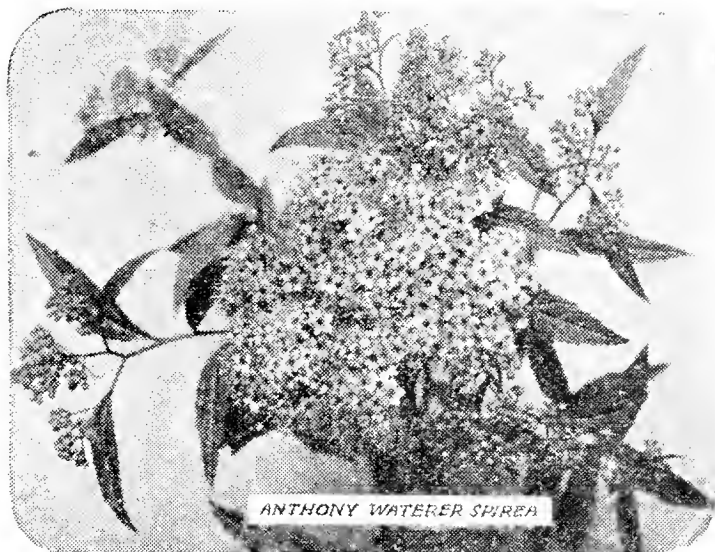

HISPIDA—A graceful shrub; upright branches, flowers pink, appearing in August. 2-3 ft., 40c; 2 for 75c, prepaid.

RHODOTYPHUS KERROIDES

WHITE KERRIA—A very ornamental, deciduous much-branched shrub, usually from three to seven feet, handsome and distinct, and is hardy as far north as Massachusetts. Has bright green foliage. Made very conspicuous by its white flowers in May or June and black fruits in the fall. 2 to 3 ft., 40c; 2 for 75c.

SUMAC

STAGHORN (Typhina)—This variety grows in the driest soils and is a very desirable plant on account of its brilliant fall coloring which in dry locations begins to show in August. The crimson fruits remain on all winter. 2 to 3 feet, 40c each; 2 for 75c.

RHUS CONTINUS—SMOKE TREE

Unique, spreading treelike shrub with large leaves. Overhung in midsummer by cloudlike masses of very light, mistlike flowers, having the appearance of smoke. Foliage changing to a brilliant shade of red and yellow in autumn. 2-3 ft, 40c each; 3 for \$1.00.

VIBURNUM—SNOWBALL

ARROW WOOD (Dentatum)—A gorgeous upright, native shrub, thriving best in moist soil. It is especially hardy, doing well from New Brunswick to Minnesota. It blooms in May or June, followed by black fruit. 18-24 in., 35c each; 3 for \$1.00.

COMMON (Sterilis)—This is the well-known common snowball of the old fashioned gardens. Besides the snow white flowers in May, the foliage is decorative and assumes a bright color in fall. 18 to 24 in., 35c each; 3 for \$1.00. 2 to 3 ft., 40c each; 2 for 75c.

HIGH BUSH CRANBERRY (Opulus)—Handsome shrub attaining twelve feet with rather smooth, light branches. Pure white flowers appear in May and June, followed by decorative fruits, which begin to color by the end of July and remain on the branches and keep their bright scarlet color until the following spring. 2 to 3 ft., 35c each; 3 for \$1.00.

LANTANA (Wayfaring Tree)—This is a hardy shrub, especially for dry situations and limestone soil. The large white flower clusters open in May and June, and are followed by red fruits. The foliage is particularly soft and heavy. 2 to 3 ft., 40c each; 2 for 75c.

PUSSY WILLOW

A Promise of Springtime

SALIX CAPRAE—(Not the Wild Pussy Willow). Enjoy these dainty silvery flowers every winter. A beautiful round shrub in summer. Wherever you have room for a Lilac or Snowball, you have room for a Pussy Willow. Use them for tall screens or backgrounds. Plant one or more of them this spring. Cut the ends of the branches next January or February. Place them indoors in a vase of water. Watch them unfold their large catkins of silvery pink, from 1 to 2 inches long. They will repay you many times their cost in pleasure each winter. Prices, 2-3 ft., 40c each; 3 for \$1.00.

WEIGELAS

ROSEA—A choice vigorous sort, which yields an immense crop of deep pink trumpet-like flowers in June, and bears a scattering of blossoms through the rest of the season. 2 to 3 ft., 40c each; 3 for \$1.00.

NANA VARIEGATA—Leaves of this variety are variegated with white flowers. Dwarf. 18 to 24 in., 40c each; 2 for 75c.

EVA RATHKE—The flowers are a deep carmine red, erect growing. A most profuse bloomer in spring and again in autumn. 18 to 24 in., 45c each; 2 for 80c.

Hedge Plants and Hardy Vines

BEAUTIFY WITH HEDGES

A small plant will make a perfect hedge much quicker than a larger plant.

ALTHEA (Rose of Sharon)—They can be kept trimmed quite low, or can be allowed to grow tall as a screen. A hedge of them in bloom with all colors of flowers is a wonderful sight. 12-18 in., 25 for \$1.00; 50 for \$1.50; 100 for \$2.50.

IBOLIM PRIVET—One of the hardiest of all hedge plants. Beautiful upright growth, very compact. Holds its foliage till middle of October or later. 18-24 in., 25 for \$2.25; 50 for \$3.75; 100 for \$7.00.

CALIFORNIA PRIVET—Free growth, succeeds under adverse conditions; good in south. Foliage is nearly evergreen, remaining on the plant until mid-winter. Nice plants, 18-24 in., 25 for \$1.75; 50 for \$3.50; 100 for \$6.00.

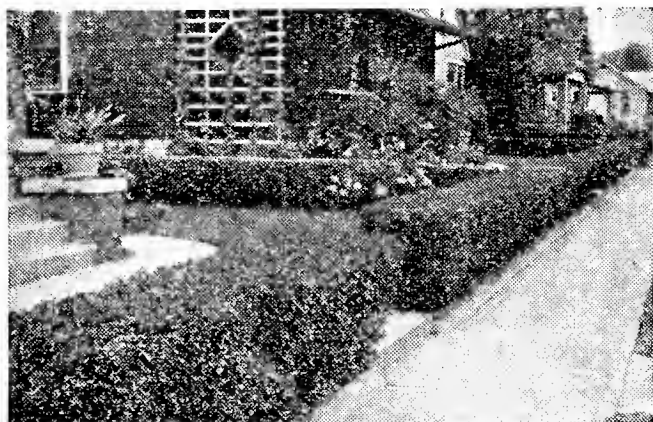

Japanese Barberry Hedge

JAPANESE BARBERRY (Berberis Thunbergii)—One of the best hedge plants in existence. Beautiful throughout the year; abundant crop of bright red berries in winter. Compact growth and thorny branches make a defense hedge that will turn cattle after five years' growth. Poor soil is no barrier. 12-18 in. plants, 25 for \$2.00; 50 for \$3.50; 100 for \$6.50.

SPIREA VAN HOUTTEII—With its charming and delicate foliage is one of the finest of shrubs for hedges. It never fails to attract with its perfect mass of pure white flowers or pendulous branches, often drooping to the ground. Foliage is attractive late in fall. 18-24 in., 10 for 90c; 25 for \$1.90; 50 for \$3.75; 100 for \$7.00.

RUSSIAN MULBERRY—A bargain plant for a hedge. This plant will not winter-kill. The foliage is solid from the ground up in the summer. May be trimmed to any shape. Special: 25 for \$1.00; 50 for \$1.50.

All hedges Not prepaid.

Privet Hedge

HARDY VINES

CLEMATIS

PANICULATA—Extremely showy when covered with small, white, fragrant flowers which appear late in the season. Beautiful, shiny, green foliage. 1-year-old No. 1 plants, 30c each; 4 for \$1.00; prepaid.

BITTERSWEET

SCANDENS CELASTRUS—Bright-colored fruit remaining usually throughout the winter. Grow in almost any soil and situation. Fruit is orange-yellow, with crimson seed. 35c each; 3 for \$1.00; prepaid.

HONEYSUCKLE

LONICERA (Hall's Japan Evergreen Honeysuckle)—Honeysuckles are well adapted for the covering of walls, arbors, etc. Leaves remain on during the winter. The flowers are white, turning to yellow, very fragrant. 30c each; 4 for \$1.00.

Clematis

TRUMPET CREEPER

BIGNONIA—A beautiful orange-colored flower. Blooms profusely and a fast grower. 2-year-old plants, 40c each; 3 for \$1.00; prepaid.

Chinese Wisteria

CINNAMON VINE

Hardy climber and makes a very vigorous growth, 15 to 20 ft. in one season. Has attractive bright green foliage and small white fragrant blooms. 15c each; 3 for 35c.

WISTARIA

CHINESE WISTARIA (Chinesis)—Will bloom the first year. Has pale green leaves and bears profusely dense, drooping clusters, purplish, pea-shaped flowers. Blooms in May. 2-year, 50c each; 2 for 90c; prepaid.

EUONYMUS

HARDY EVERGREEN BITTERSWEET—Two-year plants, fine for covering walls or unsightly places. Beautiful in both summer and winter. Will cling to walls. 25c each; 5 for \$1.00; prepaid.

SIX WONDERFUL NEW HYBRID TEA ROSES

IF YOU WANT THE BEST HERE THEY ARE

ETOILE DE HOLLANDE—This is one of the very best introductions among red ever-blooming Roses. To begin with the growth is good and the color of the bloom is a very deep, rich glowing red one. It has more than come up to our expectations in giving us such a really good everblooming red Rose, of which we have none too many. The foliage is quite disease-resisting and our plants, even during the hot, damp days of early August are always a mass of flowers and foliage.

LADY MARGARET STEWART—A variety of recent introduction. The large pointed, deep orange-yellow bud opens to an extremely well-shaped flower marked with shades of orange, carmine, and red. It is distinctly an exhibition variety, producing its buds on long, erect stems.

MARGARET McGREDY—Here we have not only a comparatively new Rose but one of the few good novelties that gives us a distinct break in color. This color is difficult to describe: red, rose and flame on the upper side of the petals, the under surface suffused with gold—a wonderful contrast; perhaps orange-vermilion, or better, coppery red, would best describe it. Growth is very vigorous and foliage dark olive-green, quite free from mildew and black-spot; bush well shaped, requiring little pruning. The ovoid buds and double, cupped blooms are of good substance and depth of petals, and are produced on stiff stems, medium in length. Very free and prolific bloomer and extremely hardy most anywhere in the United States. For massing in beds where unusual color effect is wanted, there is nothing to surpass it.

Etoile De Hollande

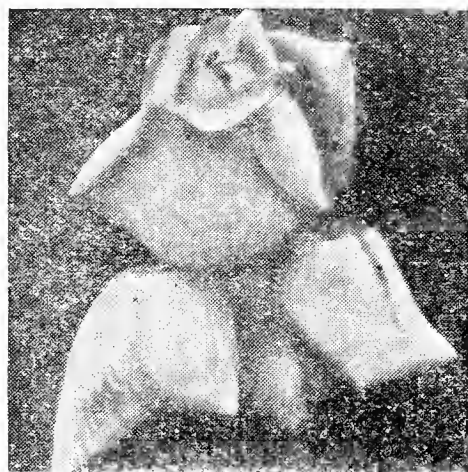

PRESIDENT HERBERT HOOVER—The best American introduction of recent years. We have found the plant perfectly hardy and free flowering, possessing all the qualities of a most valuable garden variety. First introduced as a distinct greenhouse Rose, it has now been found equally as well adapted to outdoor culture. The color combination is unique—a blending of maroon, orange, and gold. We find the color of the early flowers is more clearly defined and fixed in this variety more than in Talisman.

REV. F. PAGE-ROBERTS—This is one of the richest, fullest, and most perfect yellow Roses yet produced. The bud is beautifully marked and marbled with carmine-red. The bloom is a very full one and of great substance, and comes on a stocky plant, well branching, but of moderate height. Surely it is a variety which the Rose connoisseur must have.

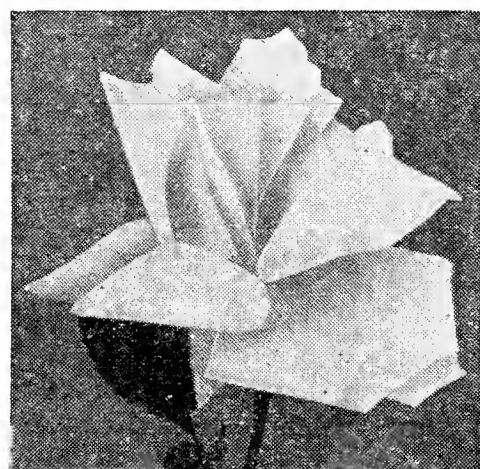

TALISMAN (T)—Brilliant red and gold buds, opening to well-shaped blooms of scarlet-orange and rich yellow. Tall, vigorous growth. Constantly in bloom. A seedling of Ophelia and Souvenir de Claudius Pernet, with the most vivid color yet produced in Roses.

Any variety of the above roses 2-year field grown roses.
50c each; 3 for \$1.25.

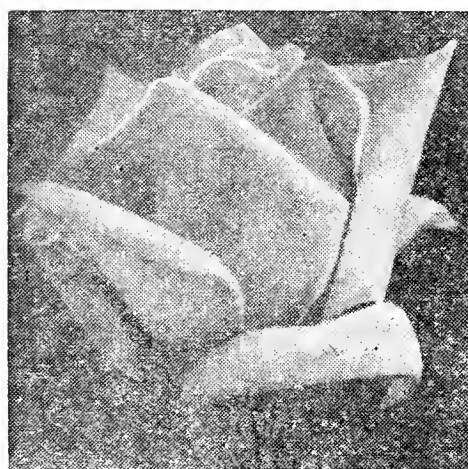

The above six roses are a magnificent balance of color.
1 each of all six for \$2.00.

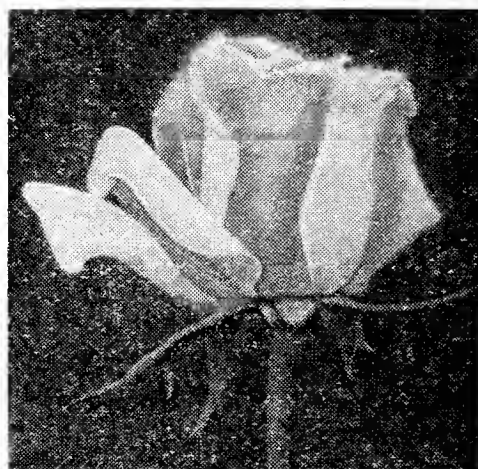

Lady Margaret Stewart

Rev. F. Page Roberts

President Hoover

Margaret McGredy

Hybrid Tea and Hybrid Perpetual Roses

HYBRID TEA ROSES ARE MARKED (T). HYBRID PERPETUALS MARKED (P)

Field grown plants, 40c each; 3 for \$1.00, prepaid

FRANCIS SCOTT KEY (T)—It is by far the most popular red rose, for its glowing colors, its remarkable size, its fullness, its perfection of form make it a greatly prized variety. The color is a rich, glowing scarlet, with darker shadings.

FRAU KARL DRUSCHKI, (P) or WHITE AMERICAN BEAUTY or SNOW QUEEN—The very highest type of its class and the best snow-white Rose ever introduced. It is an extraordinary strong grower, and has the vigor and hardiness of an oak. Flowers are immense in size and produced with great freedom. The color is a true paper white, the standard by which all white Roses are judged.

KAISERIN AUGUSTA VICTORIA (T)—Creamy white and sweetly fragrant; buds are large and pointed and flowers very full and large. Very hardy and continuous bloomer.

DUCHESS OF WELLINGTON (T)—Intense saffron-yellow, stained with deep crimson, changing to a deep coppery saffron-yellow as the flowers are fairly full, with large petals, great substance, delightfully fragrant.

E. G. HILL (T)—Dazzling scarlet shading to deeper red, with a rich glossy finish; blooms very large and fragrant; free flowering. Often considered as the finest red.

COLUMBIA (T)—It is a big Rose. The color is a true pink, about the shade of a perfect Shawyer, deepening as it opens to glowing pink.

GRUSS AN TEPLITZ (T)—The sweetest, richest crimson hybrid Tea Rose. The intense, dazzling color of this rose is found in no other variety. Fiery crimson, shaded with a dark velvety sheen, totally unlike any other color in the world. Double flowers. Produced in wonderful profusion throughout the whole growing season; in fact, it is always in bloom.

LOS ANGELES (T)—Flowers large and continuous, in color a flame-pink, toned with coral and shaded with translucent gold at the base of petals.

LADY HILLINGDON (T)—Buds of remarkable quality and elegance, of good size, opening into handsome flowers of clear apricot-yellow. Plant hardy, of much vigor and with an autumn-blooming habit.

LUXEMBURG (T)—A fine, large, fully double rose of vigorous branching habit, and unusual freedom for the color, which is a rich golden yellow.

OPHELIA (T)—Salmon-flesh, shaded with rose, large, and of perfect shape; of excellent habit, the flowers standing up well on long, stiff stems and produced in great profusion. Excellent for forcing and a fine decorative variety.

PINK KILLARNEY (T)—Color deep, brilliant, sparkling shell-pink; hardy everywhere. The bush is magnificent in growth, good size and bears its beautiful burden of flowers all summer.

RADIANCE (T)—The color is a splendid even shade of clear red, without a trace of any other color, retaining its vividness for an unusually long time after being cut. It is a remarkable bloomer, being constantly in flower from early spring until freezing weather. One of the best hardy outdoor garden roses known.

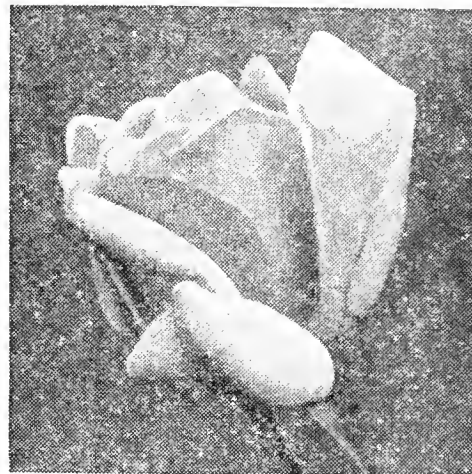

RED RADIANCE (T)—An even better Rose than its parent, Radiance, in habit, bearing big, globular flowers of deep rose-red on strong, individual canes which are freely produced all summer until frost.

RED COLUMBIA (T)—A brilliant scarlet-crimson of exquisite shade, a sport from Columbia; semi-double, one of the freest bloomers in existence; produces beautiful foliage in profusion.

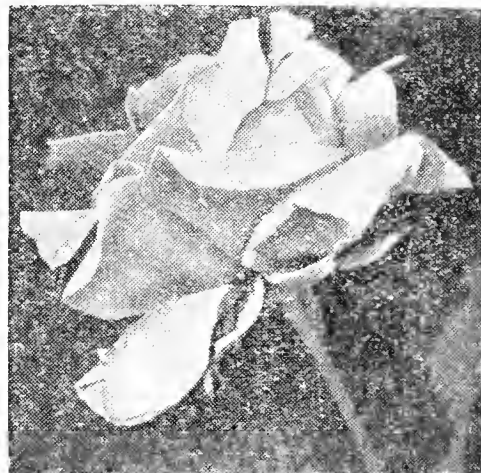

SOUV. DE CLAUDIUS PERNET (T)—The most satisfactory yellow rose ever produced. A decided and comparatively unfading sun-flower yellow even deeper toned at center. Its flower is large and full with elongated petals; the buds long and pointed.

SUNBURST (T)—The color is orange-copper or golden-orange and golden yellow; edge of petals lighter; all intense shades, extremely brilliant in effect. Some call the color cadmium-yellow. It is the yellowest of all Roses in the everblooming class.

WILLOMERE (T)—A robust garden Rose of bushy habit, with beautiful buds, very large flowers and lustrous green foliage. Color rich shrimp pink, shaded yellow at center and toning to cream-pink toward base of petals.

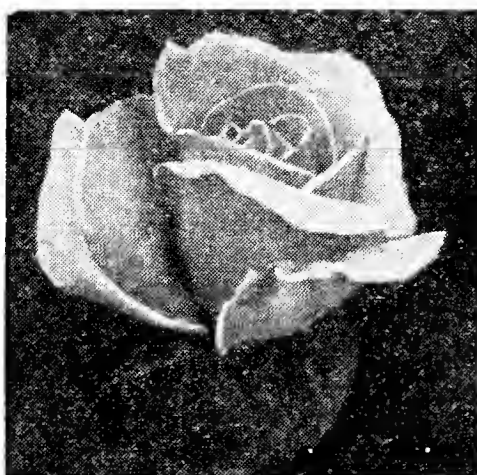

Sunburst

Gruss an Teplitz

Kaiserin Augusta Victoria

Ophelia

Francis Scott Key

HARDY CLIMBING ROSES

2 yr. old, first class, 35c each; 2 for 60c; 4 for \$1.00; 12 for \$3.00; prepaid.

ALL FIELD GROWN

American Beauty Roses

CLIMBING AMERICAN BEAUTY—American Beauty Rose in climbing form. Has all the characteristics of its relative, including form and fragrance. Healthy foliage and has strong climbing habit of growth; the abundant bloom being in prime before the June show of the bush variety.

CRIMSON RAMBLER—Will attain a height of 10 to 20 feet in a season; produces a marvelous profusion of rich and glowing crimson clusters during June and July. It is the supreme novelty among climbers and the forerunner of the splendid array of "Ramblers."

DOROTHY PERKINS—Beautiful shell pink. The flowers are borne in large clusters of small double bloom and very sweet scented. Foliage smoother and darker than the Crimson Rambler. This is undoubtedly the thriftiest, showiest, and most practical of the older pink ramblers, and trails its riotous clusters over more verandas, windows and trellises than any other variety.

DOCTOR VAN FLEET—One of the newest type of climbers and very hardy. Flowers when open run four inches or more in diameter in which it compares with the Tea class. Center built high, petals undulated and cupped. Color is a remarkably delicate shade of flesh-pink. Admirable cutting variety with stems 12 to 18 inches long.

EXCELSA—A sensational new hardy climbing rose, sometimes called "Red Dorothy Perkins." This great new rose is nearly evergreen and is absolutely hardy. Flowers very double, produced in immense trusses. Intense crimson; new and distinct.

FLOWER OF FAIRFIELD (The New Everblooming Scarlet Rambler)—Commences flowering in the spring or early summer and produces repeatedly. It blooms very profusely on young wood the first year. Very effective for covering walls, trellises or arches, equally attractive for table decorations.

GARDENIA—Bright yellow cream color when open; very fragrant and free; early flowering. This is the hardy Marechal Niel; double yellow flowering.

MARY WALLACE—Blooms two or three times during the summer months. A pillar rose supporting itself in a bushy growth 6 to 8 feet high. Bright clear rose-pink with salmon at base of petals. The largest Hybrid Wichuriana.

PAUL'S SCARLET CLIMBER—A wonderful Rose for trellis or pergola. Winner of Gold Medal as best new climbing rose at National Society's Exhibition. Scarlet, shaded crimson. Corresponds to the Climbing American Beauty and Dr. Van Fleet as to size, shape and habit. Blooms very long, holding flower after many June bloomers have dropped their petals.

SHOWER OF GOLD (Golden Yellow), (Hardy June Blooming), (Improved Yellow Rambler)—Deep golden yellow, orange shadings. Beautiful metallic foliage. A fine yellow Rambler.

SILVER MOON—Single rose of enormous size, pure white with a center of golden stamens. Beautiful, glossy, bronzy-green foliage. Unusually luxuriant growth. One of the best.

ROSA HUGONIS

A New Bush Rose From China

Like many other rare floral gems from the Orient, this variety is spectacular in its exotic beauty. Imagine a many branched shrub, 6 to 8 feet tall, rearing slender sprays in all directions, gracefully arching beneath loads of bright yellow. The flowers are borne on the previous season's growth and appear very early in the spring, before the foliage. Later in the season it throws up many new branches (next season's flowering wood) and these branches are of a beautiful deep red color, which makes the shrub a garden attraction almost throughout the growing season. **Strong field-grown plants, 50c each; 3 for \$1.25. Prepaid.**

THE FAMOUS BLUE ROSE

Add charm and distinction to your garden with this wonderful new Blue Rose—Veilchenblau—developed and perfected in North Germany after many years of experimentation.

This new German novelty Rose is a beautiful violet-blue color. The buds open in reddish-violet hue, quickly changing to amethyst and steel blue as the flowers develop into their natural loveliness.

The Blue Rose is a rapid grower, with good roots and strong, upright canes. The large, full blooms are produced in immense panicles and with the background of soft, waxy green leaves will make a truly beautiful addition to your Rose garden.

It is very hardy and disease resistant, and should be planted by every Rose lover.

Two year No. 1, 50c each; 3 for \$1.25. Prepaid.

Some Unusual Plants to Make Your Garden More Interesting

LILY OF THE VALLEY

Very small and sweet and dainty, the creamy white scalloped bells pendant along slender stems. They make up (with their broad shiny leaves) into dainty bouquets of fragrance. They spread actively from the roots and soon reclaim shaded cold ground which otherwise would be cheerless and barren. 6 for 50c; 12 for 80c; \$5.50 per 100. Prepaid.

HARDY AMARYLLIS

LYCORIS SQUAMIGERA—The only hardy and fragrant Amaryllis grown. It is a native of Japan, has immense flowers in the fall of a rosy lilac color. The bulbs we offer are strong bulbs that throw 5 to 6 gigantic blooms of the most perfect form. It is easily grown and handled and will prove a pleasure to all planters. It is perfectly hardy and blooms second year. If left undisturbed it will multiply and grow into quite a large mass that will produce a wealth of bloom each year. Price, 75c each; 2 for \$1.40; prepaid.

HARDY WATER LILIES

The lilies listed below have been selected for their color, growth, blooming, and hardiness. They are easy to grow, with sunlight, water and rich soil. On receipt of package put the plants immediately into a pail of water until planting.

The best results are obtained by planting the lily roots in the soil so the crown will be even with the top of the soil and from 6 to 12 inches below the surface of the water.

PINK—Large, hardy with very double pink flowers. Price, \$1.00 each; 2 for \$1.80; prepaid.

RED—Very full double red free bloomer. Price, \$1.00 each; 2 for \$1.70; prepaid.

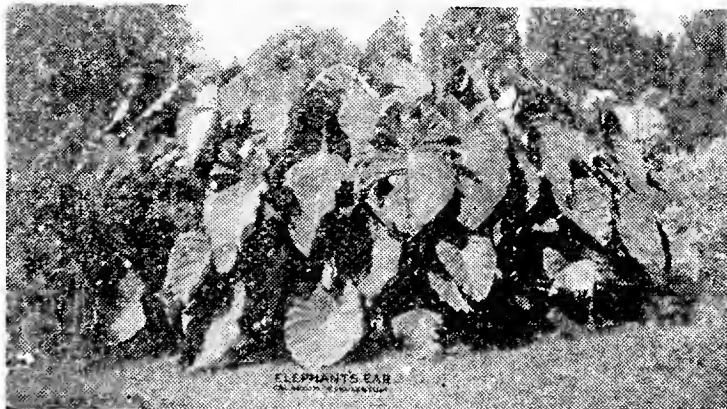

WHITE—Extra large free bloomer. Price, 75c each; 2 for \$1.40; prepaid.

YELLOW—Beautiful shade of yellow. Price, \$1.00 each; 2 for \$1.80; prepaid.

HARDY WATER LILY SPECIAL—One each of above four colors for \$2.75; prepaid.

WATER HYACINTHS

LILAC ROSE FLOWERS—It forms a lovely rosette of its curious shining green leaves, and throws up spikes of the most exquisite flowers imaginable resembling in form a spike of Hyacinth bloom, as beautiful as Orchids. In color a beautiful lilac-rose. 20c each; 3 for 50c; 8 for \$1.00.

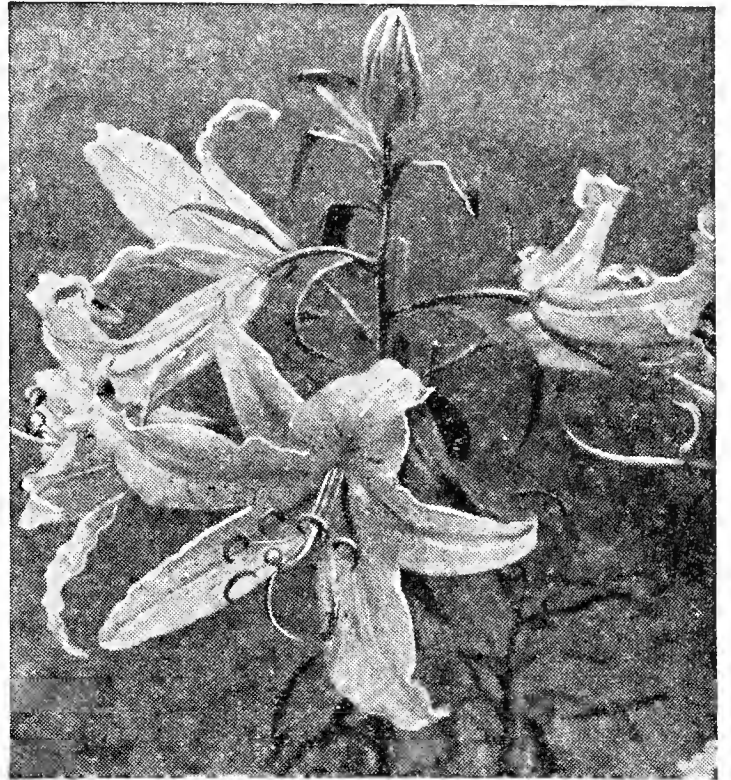

Elephant's Ear (Caladium)

ELEPHANT'S EAR

MAMMOTH LEAVES (Caladium Esculentum)—Very effective. The growth is very rapid, and the ground must be made rich.

Watering will help develop large leaves. Bulbs can be stored in dry sand in winter and kept from year to year. A very widely grown lawn plant. Price, mammoth bulbs, 30c each; 3 for 75c; prepaid.

Lily

JAPANESE LILIES

TIGRINUM SPLENDENS—The dear old single "Tiger Lily."

LILIUM CANDIDUM (Madonna Lily)—This well known and much sought for lily is considered one of the choicest of the lily tribe and one of the easiest to grow. Trumpet-shaped blooms are pure white and borne in spikes on tall, rigid, leafy stems. Blooming size bulbs, 35c each; 4 for \$1.00; prepaid.

REGAL LILY

The Sensation of the year. Charming and delicate. Regal Lily, being a native of northwestern China, is hardy. Highly recommended for general culture both for the open ground and for pots. Our prices on Regal Lily are unusually low, owing to the fact that we now have a large stock of plants for the first time since its introduction. Blooming size bulbs, 25c each; 5 for \$1.00; 12 for \$2.00; prepaid.

HARDY FERNS

The most beautiful and natural effects can be produced by planting hardy ferns. They should be planted to be protected from the prevailing winds. They are perfectly hardy and can stand planting either in shady or sunny positions.

The Hardy Ferns are most satisfactory for planting on shady banks and around porches where the sun does not reach. They are valuable in that they do well in any good well drained soil and require practically no care. No home should be without them. We can furnish either of the following varieties. Price, 25c each; 6 for \$1.00; prepaid.

OSTRICH FERN—The large leaf, tall growing variety.

ROYAL FERN—One of the large growing varieties.

BEST EVERGREENS GROWN

Plant evergreens for all year round beauty. Use them for foundation plantings, windbreaks, or in the open as specimen ornamental trees.

Our evergreens are properly grown, dug with a ball of earth and burlapped, and as they have been several times transplanted, they have a perfect root system, thereby assuring success to the planter.

ARBORVITAE (*Thuja*)

AMERICAN (*Occidentalis*)—The foliage is of a light green color. This is a very good tree for grouping, for tubs and vases, and for formal uses they are unsurpassed. May be trimmed to any desired height. Fine for hedges. 18 to 24 inches, \$1.00 each; 2 to 3 feet, \$1.50 each. Not prepaid.

CHINESE (*Biota Orientalis*)—A pyramidal tree finally attaining a height of 25 feet. Very compact form. Foliage is bright green. 18 to 24 inches, \$1.00; 2 to 3 feet, \$1.50. Not prepaid.

PYRAMIDAL (Var. *Pyramidalis*)—Forms a tall, slender column of densely branched, dark green foliage. Very graceful tree. 18 to 24 inches, \$1.25; 2 to 3 feet, \$1.75 each. Not prepaid.

GLOBE (Var. *Globosa*)—A dense dark green form of the arbor vitae, growing naturally in globe form. Of dwarf habit. 12 to 15 inches, \$1.00. Not prepaid.

TOM THUMB—A dwarf arbor vitae with a fine soft feathery foliage. 12 to 15 inches, \$1.00 each. Not prepaid.

GOLDEN CHINESE ARBORVITAE

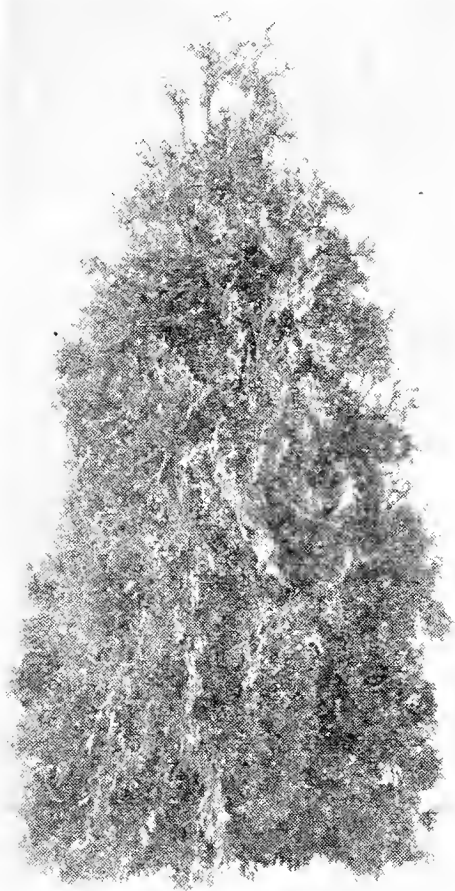

BIOTA NANA AUREA—This evergreen is known as the Golden Chinese Arbor Vitae. It is a beautiful, compact, little evergreen of a dwarf nature. It has a clear yellow color in the springtime which gradually gives way to a yellowish-green during the winter months. Its size, color, compact habit of growth and foliage makes it especially desirable for cemetery planting. Price: 12 to 18 inch plants, \$1.50 each. By express; not prepaid.

BOXWOOD

The most popular evergreen for planting in tubs or boxes. Our stock is bushy, of pyramidal form, and is matched to make pairs on all borders of two plants. Prices: 18 to 24 inches, \$2.50 each; \$4.50 pair. Not prepaid.

SPECIAL NOTICE

Do not confuse the evergreens offered on Pages 28 and 29 with the special offers of evergreens on other pages. These are large developed, balled and burlapped trees for immediate results, and are not prepaid. Each plant will be dug with a ball of earth and can be safely shipped by freight or express.

Pyramidal

JUNIPER (*Juniperus*)

CANADENSIS — A very hardy, grayish-green type. Good in rockeries and for ground covering. Spreading type evergreen. Seldom over 4 feet high. 18 to 24 inch spread, \$1.50. Not prepaid.

CHINESE (*J. Chinensis*) —Pyramidal or columnar outline, foliage of a pleasing grayish color when fresh, maturing to real dark green. 2 to 2½ feet, \$1.75, 2½ to 3 feet, \$2.00. Not prepaid.

HORIZONTALIS — A handsome, serviceable ground covering type of closely radiating habit. The color is a fresh gray green. Sizes mean spread: 1½ to 2 feet, \$1.50. Not prepaid.

IRISH—Erect, slender and formal in habit; foliage sage green, very compact; making a splendid column eventually 15 to 20 feet high; much used in cemeteries. 2½ to 3 feet, \$1.75. Not prepaid.

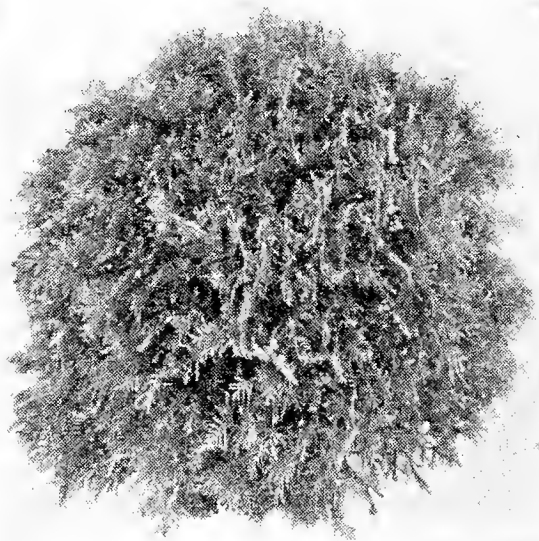

PFITZERIANA—One of the most striking of all spreading evergreens. The branches progress spirally along the trunk at a 45 degree angle, thereby making a good "filler," or standing alone, it acquires the symmetry of a broken column. Very dark green. 1½ to 2 feet, \$1.50; 2 to 2½ feet, \$2.00. Not prepaid.

DEPRESSA PLUMOSA—Grows 2 to 3 feet in spread and 18 inches high. Dark green foliage and very fine. 18 to 24 inches, \$1.50 each. Not prepaid.

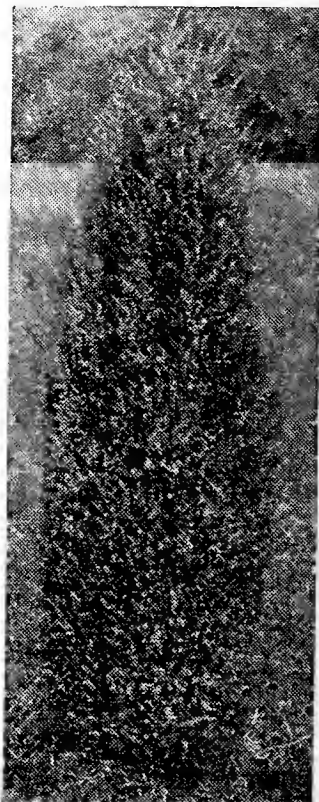

SWEDISH—Upright habit. The foliage is dense, with drooping tips. color bluish green. 18 to 24 inches, \$1.25 each. Not prepaid.

SAVIN—Handsome moss green foliage; adapted to use as a filler in evergreen groups, or as a dwarf ground covering. 18 to 24 inches, \$1.50 each. Not prepaid.

VIRGINIANA (Red Cedar)—A well known American tree, with fine, dense foliage, varying in habit and color, the majority being formal and bluntly conical. Makes a fine tree for planting on each side of an entrance or in back of low growing varieties. 2 to 3 feet, \$1.75 each. By express; not prepaid.

Globe Arborvitae

Juniper

EVERGREENS—Continued

JUNIPERS—Continued

VIRGINIANA CANNARTI—A newly derived type resembling Schotti in leaf and character, midway in color between the pronounced yellowish green of that variety, and the darkness of Virginiana. 2 to 3 feet, \$2.00 each. By express.

VIRGINIANA GLAUCA (Blue Va. Cedar)—Unlike so many varieties it is not at all formal but, without losing general compactness, its irregularity of spread is uniquely attractive, the broadly conical form and beautiful glaucous blue foliage making it one of the choicest of all Junipers. 2 to 3 feet, \$1.75; 3 to 4 feet, \$2.00. By express; not prepaid.

SPRUCE (*Picea*)

COLORADO BLUE (*Pungens*)—A handsome and very hardy tree of symmetrical habit, with light, sometimes almost silvery white foliage. Good in landscape work. 18 to 24 inches, \$3.50 each. By express.

NORWAY (*Excelsa*)—This tree is extensively planted in many of the states. Is one of the best conifers to plant for shelter and windbreaks. 18 to 24 inches, 90c each; 2 to 3 feet, \$1.25 each. By express.

ORIENTAL (*Orientalis*)—An exceedingly graceful spruce with dark, glossy foliage. It is of slow growth, therefore valuable for small gardens. It holds its lower limbs for many years. 3 to 4 feet, \$4.00 each. By express.

WHITE (*Alba*)—A very ornamental tree similar to the Norway Spruce. One of the best for cold climates. Is an upright, compact grower, and retains its branches to the ground. It can be distinguished by its grayish blue color and quick growth. It matures while comparatively young and lives to a good old age and is altogether very desirable. 18 to 24 inches, \$1.00 each; 2 to 3 feet, \$1.50 each. By express; not prepaid.

Mugho Pine

SPECIAL NOTICE

Do not confuse the evergreens offered on Pages 28 and 29 with the special offers of Evergreens on other pages. These are large developed, balled and burlapped trees for immediate results, and are not prepaid. Each plant will be dug with a ball of earth and can be safely shipped by freight or express.

DOUGLAS FIR (*Pseudotsuga*)

FALSE TSUGA—This is the tallest and one of the most important forest trees of western North America. It would be difficult to overrate its beauty. It probably grows faster than any other conifer. 2 to 3 feet, \$2.50 each.

By express.

HEMLOCK SPRUCE (*Tsuga*)

HEMLOCK SPRUCE (*Canadensis*)—This is one of the most graceful and handsome of the evergreens and is especially valuable for hedgings of evergreens, windbreaks and for specimen planting. The lumber of this tree is much used for frames of buildings. 18 to 24 inches, \$1.50 each. By express; not prepaid.

PINES

SCOTCH PINE—This grows to be a large tree, seventy to one hundred and twenty feet in height, with spreading, somewhat pendulous branches pyramidal when young, with broad and round top, often picturesque head in old age. Quite hardy. 2 to 3 feet, \$1.25 each; 18 to 24 inches, 90c each. By express.

NOTE—Scotch Pines cannot be shipped west of the Mississippi River.

MUGHO PINE (*Dwarf Mountain Pine*)—This Pine is very valuable in habit, with dark brown branches, bright green leaves, stout and acutish. The cones are ovate, a light gray in color, surrounded by a blackish ring. The tree is broader than it is high, forming a dark, dome-shaped bush. Very effective for rocky places. 12 to 15 inch spread, \$1.50 each. By express.

Pfitzer's Juniper

SPECIALLY PRICED EVERGREENS

Money Saving Idea

Have the pleasure of growing your own. In two or three years these plants will be 2 to 3 feet, suitable for foundation planting.

Evergreens on this page will be shipped to you by parcel post. They will be wrapped in waterproof paper and be strong and with a good root system. They should grow rapidly. The sizes offered on this page are by far the best sized evergreens to plant as they will grow quickly and develop into fine specimens.

All evergreens on this page sent to you prepaid.

AMERICAN ARBORVITAE—A very good tree for grouping or for formal planting. Very quick grower and can be trimmed to any desired height or shape. Makes fine hedges. Will endure shallow soil. 10 to 12 inches, 30c each; 4 for \$1.00.

CHINESE ARBORVITAE—A pyramidal tree of very compact form. Foliage is bright green and fine for foundation planting. 10 to 12 inches, 30c each; 4 for \$1.00.

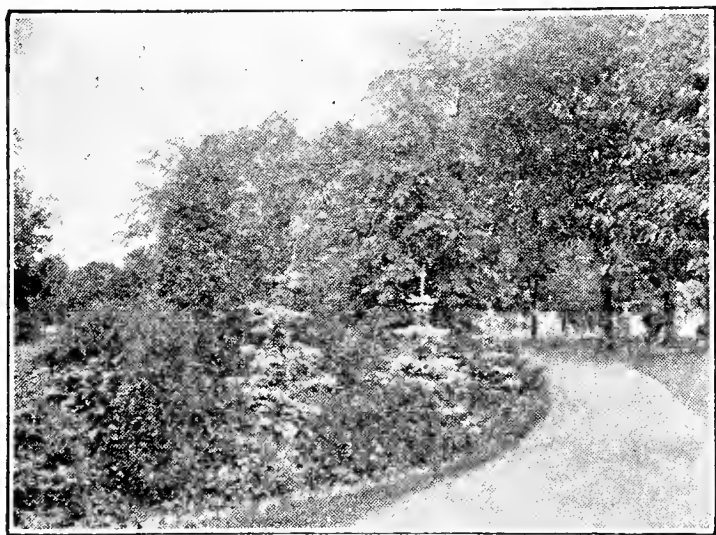

ELEGANTISSIMA ARBORVITAE—Pyramid or bushy tree; branches near the base, bright yellow in the spring and yellow green in the summer. 10 to 12 inches, 30c each; 4 for \$1.00.

SIBERIAN ARBORVITAE—Very handsome dark green variety. Grows naturally conical in shape. Good for foundation planting and is a very strong and sturdy grower. 10 to 12 inches, 30c each; 4 for \$1.00.

GLOBE ARBORVITAE—A low-growing form of the Arborvitae of very dwarf habit. Grows naturally in dwarf shape. 8 to 10 inches, 30c each; 4 for \$1.00.

BIOTA NANA AUREA (Golden Chinese Arborvitae)—It is a beautiful, compact, little evergreen of a dwarf nature. It has a clear, yellow color in the springtime which gradually gives way to a yellowish green during the winter months. Its size, color, compact habit of growth and foliage make it especially desirable for rockeries. 10 to 12 inches, 35c each; 3 for \$1.00.

MUGHO PINE (Dwarf Mountain Pine)—Dark brown branches, bright green leaves, stout, broader than it is high, forming a dark, dome-shaped bush. Will resist smoke and gas in city atmosphere better than some other varieties. 8 to 12 inches, 35c each; 3 for \$1.00.

Evergreen Planting

JUNIPER PFITZERI—A Chinese type of Juniper which makes a broad evergreen with horizontally spreading branches. Grows from 4 to 5 feet high and has plume-like branches. Is very pretty. Will thrive in hot, dry locations; also endures extremely low temperature. 3-year-old plants, 8 to 10 inches, 35c each; 3 for \$1.00.

Juniper Von Ehron

JUNIPER SABINA—A low growing, wide spreading, thickly branched, dark green evergreen that must be seen to be appreciated. 8 to 10 inches, 35c each; 3 for \$1.00.

JUNIPER BAR HARBOR (Creeping Juniper)—Very rugged, beautiful greenish blue color. Splendid for border to taller trees. Suitable for ground covers, sandy banks, terraces, and around pools. 10 to 12 inches, 35c each; 3 for \$1.00.

JUNIPER MEYERII—Choice and rare novelty of unusual color and merit. Leaves are pointed and prickly, bright shining blue color, appear to be of different colors at various angles. Has distinct tones of green, pinkish red, and white. Grows in irregular form. Ideal specimen for rockery or around pool because of unusual color and shape. 8 to 10 inches, 40c each.

JUNIPER DEPRESSA PLUMOSA—Low growing evergreen. Grows 2 to 3 feet in spread and 18 inches high. Dark green foliage and very fine. Especially suited to rockeries. 8 to 12 inches, 35c each; 3 for \$1.00.

JUNIPER STRICTA—Glaucous blue color, close growing, even branching habit. Good formal tree of dwarf size. 8 to 10 inches, 35c each; 3 for \$1.00.

JUNIPER CONSPICUA—Dwarf habit, leaves are sharp pointed, gray green color, silvery white beneath; very good in rock garden. 8 to 10 inches, 35c each; 3 for \$1.00.

JUNIPER SWEDISH—Dwarf variety grayish green, prickly needles. Grows close and compact. 8 to 10 inches, 30c each; 4 for \$1.00.

JUNIPER WAUKEGAN GREEN—Foliage scalelike or whiplike, contrast to the prickly needle-shaped foliage of some other creepers, color dark green. 35c each; 3 for \$1.00.

OUTDOOR CHRISTMAS TREE—

Plant now and in a few years you will have a nice big tree for decorating and lighting up for Christmas cheer that all can enjoy. Something that every home should have.

We recommend Norway Spruce, White Spruce or Douglas Fir. 18 to 24 inches, 60c each, prepaid.

SPECIALLY PRICED EVERGREENS

NEW GRAFTED VARIETIES OF EVERGREENS

Here is an opportunity to have some of the new and better evergreens at a very reasonable price. These are small plants—8 to 12 inches—that will transplant with practically no loss. In a few years you will have some very fine specimen plants.

OVER 75 YEARS IN THE NURSERY BUSINESS

All evergreens on this page sent to you prepaid.

Taxus

JUNIPER WAUKEGAN BLUE—Similar to green; unique because of color. During summer months it is of a soft blue. During winter it takes on a silvery purple or pinkish shade giving a color combination not found in any other tree of this type. 35c each; 3 for \$1.00.

JUNIPER VA PENDULA—Unusual weeping form with slender pendulous branches. 40c each; 2 for 75c.

JUNIPER SMITHII—Unusual in habit and color. Light green foliage. Remains fresh and bright throughout the winter. 40c each; 2 for 75c.

JUNIPER KOSTERIANA—Semi-dwarf. Spreading, naturally and gracefully. Very hardy. Bluish green color. Unusually handsome. Ideal in rockeries and around pools. Each 40c; 2 for 75c.

JUNIPER SCHOTTII—Light yellowish green color. Does not change in winter, but retains its lovely foliage throughout the year. Compact and symmetrical growth. 40c each; 2 for 75c.

JUNIPER SCOPULORUM—Select strain. Upright growth, silvery color. Thrives in hot dry weather. Not easily injured by snow and sleet. Good shape. 40c each; 2 for 75c.

JUNIPER BURKII—Symmetrical habit. Dense foliage. Distinct. Silvery gray until frost, then becomes overlaid with purple tones. Fine for specimen. 40c each; 2 for 75c.

JUNIPER ELEGANTISSIMA—One of the finest. Broad based pyramid. Well formed. Branches are tipped with gold in spring but retain the green coloring throughout the winter. 40c each; 2 for 75c.

JUNIPER VON EHROH—Spreading upright branches, a fast growing variety resembling Juniper Pfitzeri in habit of growth. 40c each; 2 for 75c.

JUNIPER PYRAMIDALIS SABINA—New columnar vase shaped evergreen; a fast grower with graceful upright branches about one to two feet across. 40c each; 2 for 75c.

JUNIPER PYRAMIDIFORMIA DUNDEE—This variety has only been introduced a few years. It is an upright type and a very compact grower with steel gray foliage in the summer changing to a beautiful purple hue in the fall. 40c each; 2 for 75c.

One each of the above 10 new grafted Junipers, a \$4.00 value for only \$3.00. Two each (an \$8.00 value) for only \$5.00.

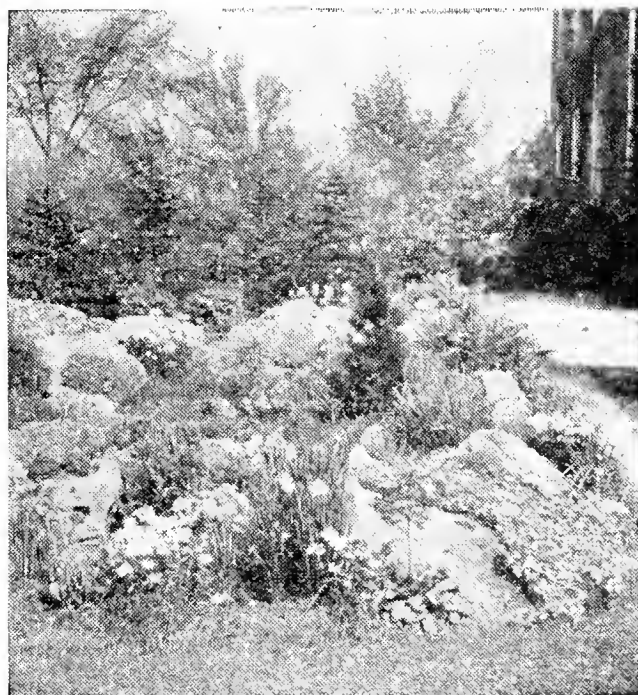

TAXUS (Japanese Yew)—Waxy, shiny, green foliage of low, irregular and picturesque outline. Thrives in dense shade. Very hardy. Will resist smoke and gas in city atmosphere better than some other varieties. 35c each; 3 for \$1.00.

FOUR ROCK GARDEN EVERGREENS

One each of golden, blue, silver, and green color. Select stocky plants; three and four years old. Can be used in rock gardens or any other place.

ALL POSTPAID FOR \$1.00.

PLANT BULBS THIS SPRING

— GRASS SEED —

Cannas

GOOD VARIETIES OF CANNAS

The Cannas with their large, various-colored leaves easily hold first place for producing a tropical effect on the lawn.

LIST OF THE BEST VARIETIES

Each, 15c; 2 for 25c; \$1.25 per dozen.

CITY OF PORTLAND—3 to 4 ft. tall. A most valuable variety. Flowers bright pink, foliage green.

KING HUMBERT—4 to 5 feet. The most popular Canna. Orange-scarlet flowers. Bronze foliage.

THE PRESIDENT—3 to 4 feet. Immense glowing scarlet with green foliage.

YELLOW KING HUMBERT—4 to 5 feet. Large orchidlike yellow blooms. Vermilion spots. Green leaves.

GLADIOLUS—Glory Mixture

This is a wonderful mixture of Gladiolus made up of many of the best varieties and includes many of the ruffled sorts. **Special low price 50 for 60c; 100 for \$1.00, prepaid.**

TUBEROSES

FRAGRANT DOUBLE — The flower spikes attain a height of about 2 feet, and are compactly filled for two-thirds of their length with very large, perfectly double flowers. 1½ to 2 inches across. The flowers have the waxlike substance of a Camellia, are glistening white and deliciously fragrant. **Price, 6 for 35c.**

Tuberose

DAHLIAS

Dahlias are the most gorgeous of all summer flowers, both as color in your garden and as cut flowers for indoor decoration.

JANE COWL—The finest autumn tint decorative. Bronzy buff and old gold. **Each, 45c; 3 for \$1.20.**

JERSEY BEAUTY—Large clear pink decorative. A real 100% Dahlia. **Each, 40c; 3 for \$1.00.**

MINA BURGLE — (Dec.) A brilliant glowing scarlet of large size. **Each, 25c; 3 for 65c.**

SNOWDRIFT— (Dec.) Very popular large pure white. **Each, 30c; 3 for 75c.**

DAHLIA COLLECTION — One tuber each of the above four dahlias. A \$1.40 value for \$1.00.

Dahlias

GOOD GRASS SEED FOR GOOD LAWNS

EVERGREEN MIXTURE

For a Good, Clean Quick Lawn

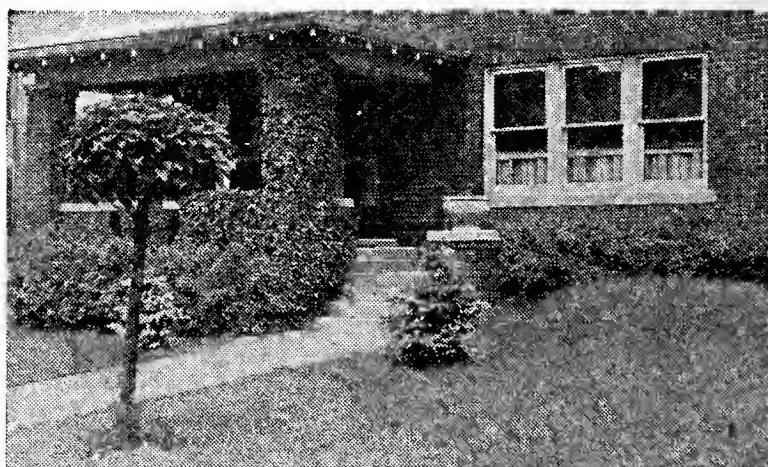

This mixture is composed of the choicest grasses for lawn purposes, and is especially made to produce a crop of grass very quickly. **Price, per pound, 40c, postpaid; 4 pounds for \$1.40, postpaid by freight or express; 10 pounds at \$3.25.**

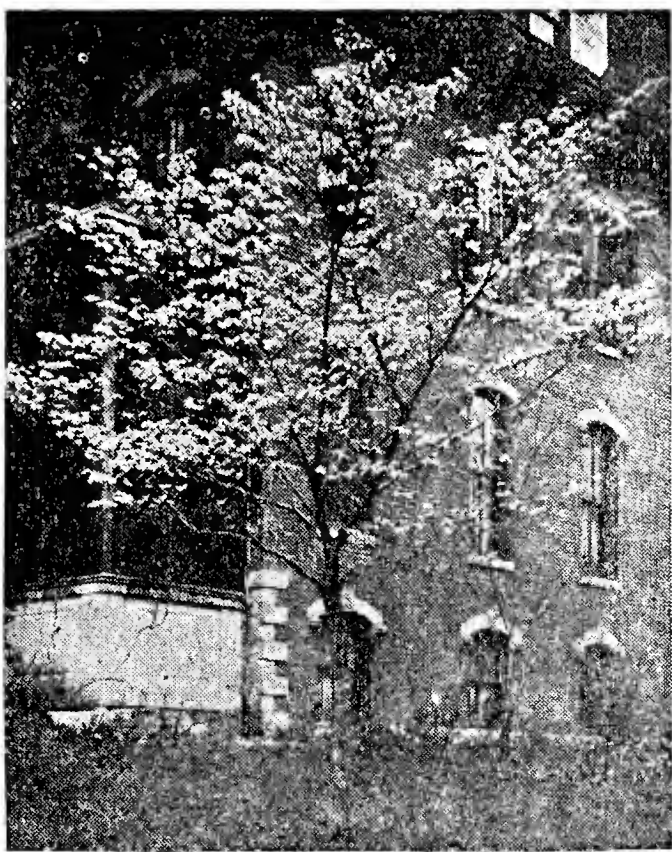

SHADY NOOK MIXTURE

Have you a lawn that is shaded by trees? If so try a few pounds of our Shady Nook Grass Mixture which is just what you need in order to raise a patch of fine, compact, velvety grass under such conditions. **Price per pound, 50c; 4 pounds for \$1.80, postpaid.**

KENTUCKY BLUE GRASS

One of the most fancy grasses that we have today. Is largely used in lawn making and starts growing early in the spring, continuing until the ground freezes late in the fall. **Price per pound, 50c; 4 pounds, \$1.80, postpaid.**

Pink Flowering Dogwood

Scarlet Fruited Thorn

Oregon Hollygrape

PINK FLOWERING DOGWOOD

(Cornus Florida Rubra)

Covered in early spring with masses of large rose-red blooms. Rich red berries in fall. Formally shaped; slow growing. Unusually attractive lawn specimen or group subject. This fine tree will excite admiration wherever grown. **Strong 2-year trees, 3 to 4 ft. tall, \$1.25 each; 3 for \$3.50; prepaid.**

BLOOD RED JAPANESE MAPLE

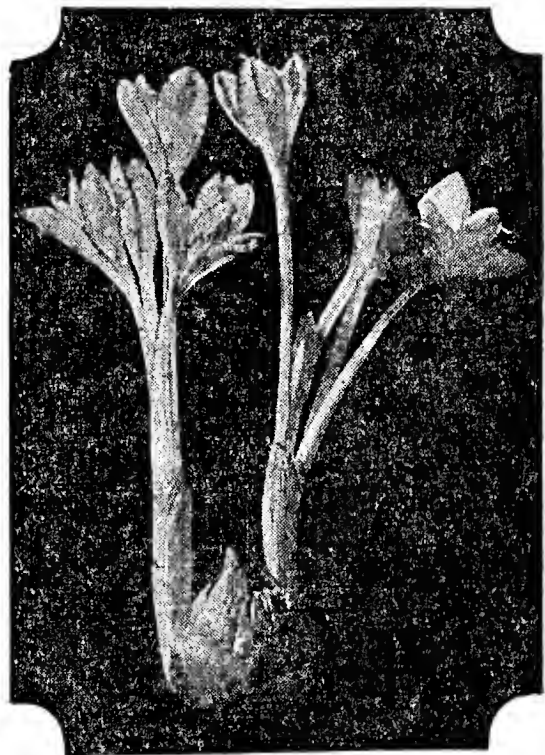

ACER PALMATUM ATROPURPUREUM—It is a very popular low growing tree or tall shrub. Has star shaped leaves of a blood red color. If planted in a sunny location the leaves retain their bright red foliage all summer and fall. In a shady location the leaves turn a reddish green toward the latter part of the season. It is a plant that everyone admires, and attracts a lot of attention in any planting. **Price, 12 to 15 inch plants, \$1.00 each; not prepaid.**

SCARLET FRUITED THORN

The beautiful scarlet fruits of this tree are very attractive in late fall and early winter. It is a low growing tree, very symmetrical in shape, perfectly hardy. It can be trained in any desired form. The foliage is always bright and attractive. **2-3 ft., 35c each; 3 for \$1.00; prepaid.**

PINK FLOWERING LOCUST

This shrub is valued for its elegant clusters of rose colored flowers, which expand toward the last of May and continue for some time. The branches resemble the Moss Rose. **2-3 ft., 35c each; 4 for \$1.00, prepaid.**

Colchicum

COLCHICUM

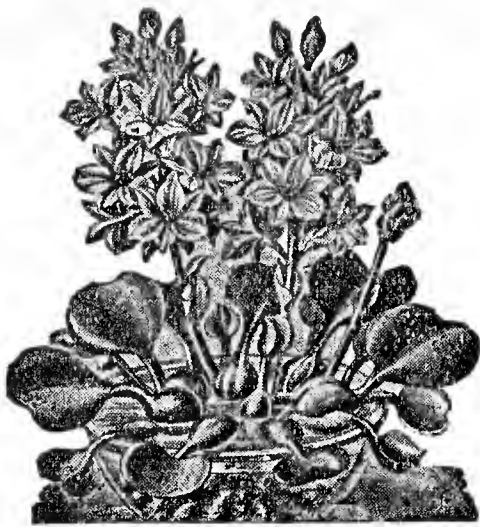

It requires no soil, no water, no care, surprising and beautiful. Delivered in July. **30c each; 4 bulbs, \$1.00, prepaid.**

HARDY MYRTLE

The bright blue flowers appear in May and last for weeks. The foliage is a lustrous green throughout the year. It is a very useful ever-green plant for ground covering, especially adapted to shady places. **Height 4 to 6 ins. 15c each; 10 for \$1.00; \$8.00 per 100; prepaid.**

OREGON HOLLYGRAPE

MAHONIA AQUIFOLIA—A beautiful ever-green shrub, with smooth shining holly leaves; bright yellow flower clusters in May, and blue berries. The leaf color varies capriciously throughout the year, assuming all shades of green, with flecks of red and bronze. Of special value in shady locations. **Bushy field grown plants 15-18 ins., 50c each; 3 for \$1.00; prepaid.**

Water Hyacinth

HARDY CACTUS

OPUNTIA RAFINESQUII

—Will stand 20 degrees below zero. Can be grown indoors or outdoors. Fine for rockeries, border for evergreens, banks, perennial beds, etc. It is evergreen, producing from June till September, large semi-double red and yellow flowers 4 inches across. An ornamental interesting plant for outdoor culture, easily grown. We have a limited supply of these for customers only, so order soon. **30c each; 3 for 75c; prepaid.**

Tree Strawberry

WATER HYACINTHS

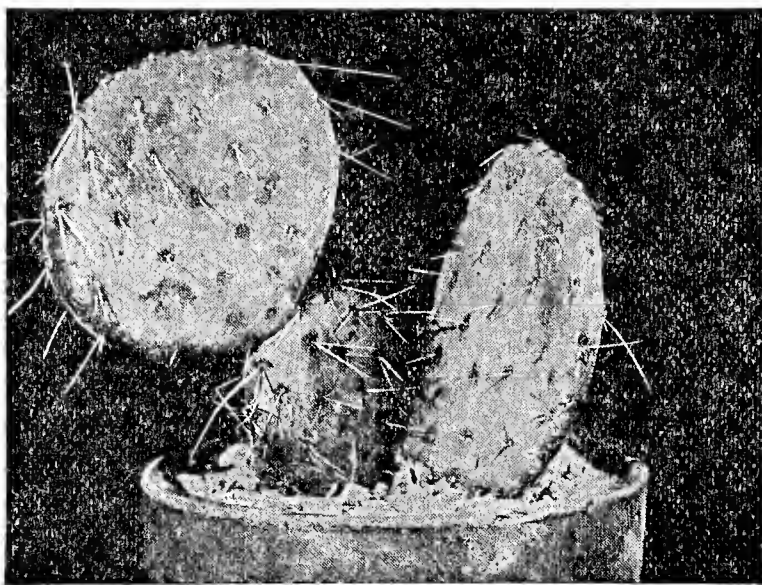

LILAC ROSE FLOWERS—It forms a lovely rosette of its curious shining green leaves, and throws up spikes of the most exquisite flowers imaginable resembling in form a spike of Hyacinth bloom, as beautiful as Orchids. In color a beautiful lilac rose. In the windows the most beautiful effect is produced by using a glass vessel of some sort, with shells and white sand so arranged as to conceal a small amount of soil. In summer it can be grown outdoors in pools or tub of soil. **20c each; 3 for 50c; 8 for \$1.00; prepaid.**

TREE STRAWBERRY

The Tree Strawberry or Strawberry-Raspberry as it is sometimes called, is one of the largest and most beautiful of all berries.

A new plant in habit and growth and form of fruit. It puts up numerous strong branching shoots about 2 feet high.

Bears beautiful large ruby red fruit, the bright red berries showing a striking contrast to the large white blossoms. This bush with its glossy green leaves makes a very ornamental plant, besides giving you a crop of the finest berries for jelly and jam. The canes soon shoot up in the spring, blossoming and bearing in early summer. They endure cold climate getting larger and better every year, giving many extra plants. Order now, as the stock is limited. **Prices prepaid, 3 for 35c; 6 for 55c; 10 for 75c.**

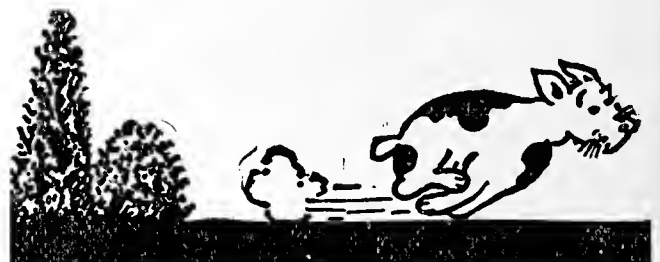

Cactus

A PROMISE OF SPRINGTIME

PUSSY WILLOW—(Not the Wild Pussy Willow). Enjoy these dainty silvery flowers every winter. A beautiful round shrub in summer. Wherever you have room for a Lilac or Snowball, you have room for a Pussy Willow. Use them for tall screens or backgrounds. Plant one or more of them this spring. Cut the ends of the branches next January or February. Place them indoors in a vase of water. Watch them unfold their large catkins of silvery pink, from 1 to 2 inches long. They will repay you many times their cost in pleasure each winter. **Prices, 2-3 ft., 35c each; 4 for \$1.00; prepaid.**

CHINESE MAGNOLIA

The finest magnolia grown. It grows as far north as Detroit. Immense cupshaped flowers 4 to 5 inches across. The flowers create a wonderful scene. **12-18 inch, \$1.25 each; 3 for \$3.25; prepaid.**

"DOGZOFF"

If you are bothered with dogs, cats or rabbits, "Dogzoff" is the spray you need. It is a most efficient animal repellent and one spraying will last from three to four weeks. Not poisonous to plants and will not injure animals. Not offensive to humans. Its use is guaranteed to keep these animals from any place where they are not wanted.

"Dogzoff" is applied with any small insect sprayer and one application usually does the work.

"Dogzoff" will save its cost many times over around the garden and home.

PRICE FOR SEASON'S SUPPLY 69c PRE-PAID

OAK LEAF HYDRANGEA

Rather uncommon; leaves resemble, in a magnified way, the foliage of some gigantic oak. Flowers similar to *H. paniculata*. One of the best known shrubs for shady places. Particularly valuable for the brilliant autumn coloring. Good for shrub border. **15-18 in., 50c each; 3 for \$1.25; prepaid.**

Plants You Should Plant

KOLKWITZIA (Beauty Bush)

Graceful, arching shrub with center almost upright. The flowers are produced along the whole length of the branches in clusters at the ends of short, leafy shoots. They are tubular with a gaping mouth, deep pink without, stained with yellow brown on the lower throat and lip. The graceful habit of the plant, its free-flowering qualities, pleasing color, combined with perfect hardiness, make this one of the most beautiful, as well as most useful shrubs that China has given to the gardens of this country. 2-3 ft., 40c each; 3 for \$1.00, prepaid.

SILKY DOGWOOD

CORNUS KOUSA CHINENSIS—The flowerheads are extremely large, frequently five to six inches across, the white bracts overlapping the buttonlike mass of real flowers in the center. Experts have acclaimed this Dogwood as the finest of Chinese plants introduced to America. Its flowers are produced in June and hang on in excellent condition for nearly a month. The fruits are like strawberries, and very much enjoyed by the birds. Its foliage turns scarlet in autumn. 12 to 18 in., 35c each; 2 for 60c; prepaid.

OHIO BUCKEYE

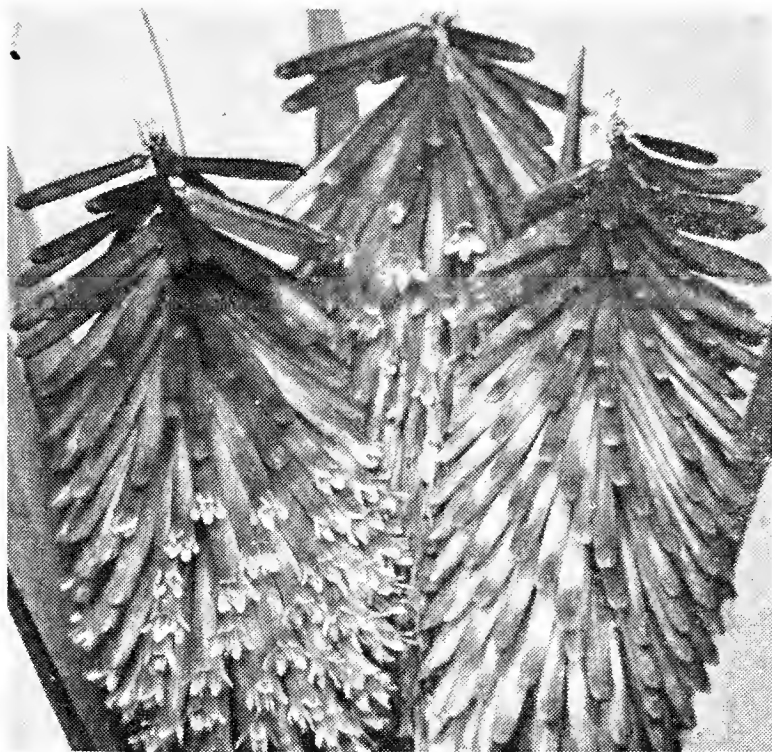

WHITE FLOWERING—This well known species is very handsome; has magnificent spikes of white flowers borne in profusion and sweetly scented. It has been made the State Tree for Ohio. 3 to 4 ft. plants \$1.25 each; 2 for \$2.00; prepaid.

Ohio Buckeye

TRITOMA, RED HOT POKER

The Tritoma is sometimes called Red Hot Poker or Torch Flower. It will bloom the first season, sending up tall flower stems on which are borne the great blossoms of a bright red or flame color. Single plants produce from five to a dozen of these great flower stalks, presenting a brilliant appearance. The plants are hardy in open ground and bloom early. 15c each; 3 for 40c, prepaid.

Red Hot Poker

OAK LEAF HYDRANGEA

Rather uncommon; leaves resemble, in a magnified way, the foliage of some gigantic oak. Flowers similar to *H. paniculata*. Particularly valuable for the brilliant autumn coloring. Good for shrub border. 15-18 in., 50c; 2 for 90c, prepaid.

HARDY AMARYLLIS

LYCORIS SQUAMIGERA—The only hardy and fragrant Amaryllis grown. It is a native of Japan, has immense flowers in the fall of a rosy lilac color. The bulbs we offer are strong bulbs that throw 5 to 6 gigantic blooms of the most perfect form. It is easily grown and handled and will prove a pleasure to all planters. It is perfectly hardy and blooms second year. If left undisturbed it will multiply and grow into quite a large mass that will produce a wealth of bloom each year. Price, 75c each; 2 for \$1.40; prepaid.

RED MALAGA GRAPE

Hardy California Grafted Grapes now can be grown in this country.

RED MALAGA—The vine is a good producer. Big clusters, large fruit, round in shape, deep red color, especially when held to the light. Ripens early. \$1.00 each; 3 for \$2.00; prepaid.

FILBERTS (Hazelnut)

AMERICAN — (Hazelnut.) Will grow in almost any location, but prefers a rather moist soil, such as can be found along streams. Nuts are tender and of fine flavor. 10 to 15 inch, one year old, 3 for 50c; 2 to 3 ft. plants, each, 40c; three for \$1.00; prepaid.

TREE ALTHEA

Same as shrub Althea only trimmed in tree form. These miniature trees are very symmetrical in their habit of growth. Will make one of the few fall flowering trees. 3-4 ft., 50c each; 3 for \$1.25; not prepaid.

NEW BUTTERFLY BUSH

BUDDLEIA—Ile de France—A new French Buddleia much superior to the old common varieties. The outstanding qualities of this new buddleia are the rich purple color and a tremendous size of its flower spikes which are often one foot or more in length. The bush is a mass of blooms from early July to late fall. The bush is of uniform habit and growth about 3-4 feet tall. The beautiful fragrant flowers attract butterflies and will make you proud to exhibit this new variety. 60c each; 4 for \$2.00; 10 for \$4.75; prepaid.
